

# Bianca Ivette Perez

She/her

## Hometown

Chicago, Illinois.

## Major

Bachelor of Science in Architectural Engineering

## Why did you choose your major/What do you want to do with your degree?

I chose architectural engineering because I am very interested in the structural aspects behind the creation of a building.

## What is your favorite thing about the Camras Scholars Program?

How welcoming everyone is.

## Where do you see yourself in 20 years?

see myself having a family and working full time somewhere downtown in the beautiful city of Chicago.

## Achievements that speaks about you as an individual and representative of this Scholarship Organization.

My freshman year of high school I learned that the ten individuals within the highest GPA of their graduating class, graduate in a white cap and gown while everyone else graduates in green. That day I came back home to my mother and told her "mom my GPA at the end of senior year will be very high because no way I'm graduating in an ugly green color I want to graduate in white." This joking mindset of "I don't look good in green" kept me motivated and determined. Fast forward I graduated top 4 in the class. All to show that no matter what I will stay determined and reach the goals that I set for myself.
