

Faith Balda

She/her

Hometown

Olathe, Kansas.

Major

Bachelor of Science in Finance

Why did you choose your major/What do you want to do with your degree?

I enjoy looking at number, analyzing so I'm hoping to do something more math targeted in finance but still involved with marketing because I really like more personable jobs.

Where do you see yourself in 20 years?

Hopefully financially stable with a family

What is your favorite thing about the Camras Scholars Program?

I think it's a very open diverse program. Camras is full of driven individuals with leadership qualities which allows for a way more diverse group because any background can create a leader.

Achievements that speak about you as an individual and representative of this Scholarship Organization.

I really enjoy helping at my church back home. We do a food pantry on Saturdays and I'm so excited to be able to partake again over winter break. I am from a smaller state and focusing on my degree and acclimating to a new big environment has been a lot but I think I'm finally getting the hang of things so my goal for next semester is to work on my socials. I really want to find more community service opportunities like back home where serving a community makes a community, and I'd really love to join some sort of club, currently looking at a puzzle club and a club of young Catholic adults.
