

# James Johnston

He/him

## Hometown

Heyworth, Illinois.

## Major

Bachelor of Science and Master of Chemical Engineering, specialization in Energy/Environment/Economics

## Why did you choose your major/What do you want to do with your degree?

I chose to major in chemical engineering since I had the opportunity to take a number of chemistry courses in high school, and enjoyed them immensely. Additionally, I loved my engineering course that I took, which helped me with my decision.

## What is your favorite thing about the Camras Scholars Program?

My favorite thing about the Camras Scholars Program is the number of opportunities it provides.

## Where do you see yourself in 20 years?

I see myself working on the development of energy technologies, and hope to be focusing on the development of better batteries. .

## How do you think you best represent what it means to be a Camras scholar?

I am on the executive board for the Material Advantage club, where I am trying to find ways to diversify and expand the club. Additionally, I have participated in the Camras reading program.
