

Olivia Jameson

She/her

Hometown

Cloquet, Minnesota

Major

Bachelor of Architecture

Why did you choose your major/What do you want to do with your degree?

I chose architecture because I enjoy the wide variety of topics that are included when working on a new project and fields you can tap into and use within the project.

What is your favorite thing about the Camras Scholars Program?

I enjoy meeting so many new people and the projects.

Where do you see yourself in 20 years?

In 20 years I see myself working in a small firm or hopefully running my own. I would like to be traveling a lot but also potentially returning to IIT's architecture program as a professor.

Achievements that speaks about you as an individual and representative of this Scholarship Organization.

I have volunteered in organizations including FIRST Robotics and CHUM - a non-profit in Duluth, as well as many more. This upcoming school year a few of my fellow Camras Scholars and I are starting up a project that focuses on the health of the Chicago River. We have high hopes this will help students at IIT become more proactive within the broader Chicago area and the environmental concerns that impact us all.
