

# Raven Anich

They / them

## Hometown

Pasadena, California.

## Major

Bachelor of Science in Mechanical Engineering, minor in Human Centered Design

## Why did you choose your major / What do you want to do with your degree?

I chose my major because I felt that it would allow me the most opportunities to learn about different aspects of engineering and provide a basis for me to continue to develop skills.

## What is your favorite thing about the Camras Scholars Program?

I love the community that the Camras Scholars Program provides. The other students are a great on campus community to have and have become great friends. The alumni network and connections that the Camras Scholars Program provides are fantastic.

## Where do you see yourself in 20 years?

In 20 years I hope to be the lead engineer of a project team innovating the next generation of products that help people and the environment.

## Achievements that speaks about you as an individual and representative of this Scholarship Organization.

As a member of the Executive Board for the IIT chapter of The American Society of Mechanical Engineers I act in a leadership position to advance education, experience, and research in engineering for students on campus.
