

# Rohan Mody

He/him

## Hometown

Rancho Cucamonga, California.

## Major

Bachelor of Science in Chemistry

## Why did you choose your major/What do you want to do with your degree?

I chose chemistry as my major because I was very interested with intermolecular forces and how the bonds between two very basic elements form the backbone of all organic life. I plan on using my chemistry degree to pursue my dream of being a doctor, where I will be able to apply the knowledge I learned to the field.

## What is your favorite thing about the Camras Scholars Program?

I love the quick responses and availability of the leader of the program as it allows me to ask any questions and not be left in the dark for an unknown amount of time.

## Where do you see yourself in 20 years?

I see myself working in the medical field and helping patients either in a hospital or in my own practice.

## Achievements that speaks about you as an individual and representative of this Scholarship Organization.

I am always willing to help out any individual and guide them in the right direction no matter the size of the issue. If I am unable to help, then I will recommend the proper services for a person to achieve their goal.
