

# Fatima Ali Khan

She/her

## Hometown

Chicago, Illinois

## Major

Dual Degree Bachelor of Science in Biology and Psychological Science

## Why did you choose your major/What do you want to do with your degree?

I want to pursue a dual degree in Biology and Psychological Science, as this interdisciplinary program will allow me to develop a deeper understanding of mind-body interactions and functioning, allowing me to better serve my patients as a future physician.

## What is your favorite thing about the Camras Scholars Program?

I enjoy meeting students from various backgrounds and interests and learning from them.

## Where do you see yourself in 20 years?

I see myself as a practicing physician who is involved in both education and legislation to improve the overall health of my community.

## Achievements that speaks about you as an individual and representative of this Scholarship Organization.

As a youth advocate for Empowering Women NFP, I wrote, edited, directed, and filmed a six-part well-being video series for survivors of domestic violence which was well received. I was then asked by the organization to follow this up with a social media mindfulness series which was equally successful.
