## INDEPENDENT AUDITOR'S REPORT

The Board of Trustees Illinois Institute of Technology: Chicago, Illinois

#### **Report on the Financial Statements**

We have audited the accompanying consolidated financial statements of Illinois Institute of Technology and Subsidiaries (the "University"), which comprise the consolidated statements of financial position as of May 31, 2021 and 2020, and the related consolidated statements of activities, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Illinois Institute of Technology and Subsidiaries as of May 31, 2021 and 2020, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Emphasis of Matter

As discussed in Note 1 to the consolidated financial statements, the University has adopted Accounting Standards Update 2016-02 - *Leases (Topic 842)*. Our opinion is not modified with respect to this matter.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 23, 2021, except as to note 18, which is as of February 17, 2022, on our consideration of Illinois Institute of Technology's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Illinois Institute of Technology's internal control over financial reporting and compliance.

CROWE LLP

Crowe LLP

Chicago, Illinois November 23, 2021, except as to note 18, which is as of February 17, 2022

<u>Basis of Presentation</u>: Illinois Institute of Technology (the University or Illinois Tech) is a private not-for-profit coeducational technical institution that is dedicated to superior teaching and excellent scholarship. Located in Chicago, Illinois, the University enrolls a diverse student body from across the nation and a number of foreign countries.

IIT India is a private not-for-profit entity headquartered in Bangalore, India. The entity has been created to facilitate IIT's ability to deliver long distance internet-based educational programs to residents of various cities in India.

IIT Research Institute (IITRI) is a not-for-profit corporation working for the advancement of knowledge and the beneficial application of science to meet the needs of society. IITRI's articles of incorporation provide that, in addition to its primary purpose, it will support and assist the University, and in the event of dissolution, IITRI's assets would be distributed to the University. Members of the executive committee of the board of trustees of the University are members of the IITRI Corporation. Four officers of the University serve ex officio as members of the IITRI Board of Governors. IITRI also prepares separate annual financial statements as of September 30, its fiscal year end.

The accompanying consolidated financial statements are as of May 31, which have been prepared on the accrual basis of accounting, include the accounts of Illinois Institute of Technology, IIT India, and IITRI as of May 31. All significant intercompany transactions between these entities have been eliminated from the accompanying consolidated financial statements.

<u>Net Asset Categories</u>: The University maintains its accounts in accordance with the principles and practices of fund accounting. Fund accounting is the procedure by which resources for various purposes are classified for accounting purposes in accordance with activities or objectives specified by donors.

For financial statement reporting purposes, however, the University's consolidated financial statements have been prepared to focus on the organization as a whole and to present balances and transactions in accordance with donor-imposed restrictions.

Net assets and related activity are classified and reported as follows:

Without Donor Restrictions – Net assets that are not subject to donor-imposed restrictions.

*With Donor Restrictions* – Net assets that are subject to donor-imposed restrictions that will be met either by actions of the University or the passage of time. Items that affect this net asset category include gifts for which restrictions have not been satisfied and annuity and life income gifts for which the ultimate purpose of the proceeds is restricted temporarily.

Additionally, net assets that are subject to donor-imposed restrictions that require them to be maintained permanently by the University are considered net assets with donor restriction. Items that affect this net asset category include gifts and pledges wherein donors stipulate that the corpus be held in perpetuity (primarily gifts for endowment and providing loans to students) and only the income be made available for program operations, and annuity and life income gifts for which the ultimate purpose of the proceeds is permanently restricted.

<u>Operations</u>: Operating results in the consolidated statements of activities reflect all transactions increasing or decreasing net assets except those items associated with gifts and income relating to long-term investment, endowment spending, and other infrequent gains, losses, revenues, and expenses.

#### Revenue Recognition:

#### Tuition, Fees, and Auxiliary Services

Tuition and fees are derived from academic services rendered by the University on campus and online, as well as from related educational resources that the University provides to its students, such as access to course and online materials. The University recognizes revenue for academic services over the applicable academic term. Scholarships provided to students by the University are reflected as a reduction of gross tuition and fees. For the years ended May 31, 2021 and 2020, tuition and fees revenue was reduced by approximately \$131,103 and \$122,722, respectively, due to scholarships the University provided to students. Tuition and fees received in advance of services are reported as deferred revenue and student deposits in the consolidated statements of financial position.

Sales and services of auxiliary enterprises include housing services, food services, a bookstore, parking operations, and events. The University recognizes revenue for housing and certain food services proportionately over the applicable academic term. For the years ended May 31, 2021 and 2020, auxiliary revenue was reduced by approximately \$3,221 and \$3,257, respectively, due to scholarships the University provided to students.

Fees related to housing and food received in advance of services are reported as deferred revenue and student deposits in the consolidated statements of financial position. The University typically recognizes revenue from other sales and services of auxiliary enterprises at the point in time sales occur or as services are rendered.

Sales and services of auxiliary enterprises consist of the following:

	<u>2021</u>	<u>2020</u>
Housing services, net	\$ 4,409	\$ 7,901
Housing proration due to shift to online learning	(3)	(947)
Food services	4,868	6,521
Food service proration due to shift to online learning	(3)	(818)
Other	 578	 1,845
Total	\$ 9,849	\$ 14,502

The University's receivables represent unconditional rights to consideration from its contracts with customers. Typically, once a customer is invoiced for tuition, fees, and auxiliary services, payment is due immediately. Accounts receivables as of the years ended May 31, 2021 and May 31, 2020 were \$9,826, and \$9,168, respectively. The University's contract liabilities are presented as deferred revenue and student deposits in the consolidated statement of financial position. Deferred revenue and student deposits in any period represent the excess of tuition, fees, and other student payments received over amounts recognized as revenue on the statement of activities. The University's education programs have starting and ending dates that differ from its fiscal year end. Therefore, at fiscal year end, a portion of revenue from these programs is not yet earned. The University does not present information about outstanding performance obligations as of year end because its contracts with students all had original terms of less than one year.

The University maintains an institutional tuition refund policy, which provides for all or a portion of tuition and fees to be refunded if a student withdraws during the stated refund period.

The University had no costs that were capitalized to obtain or to fulfill a contract with a customer.

## Exchange Transactions from Grants and Contracts

Revenue from exchange transactions for applied research is recognized over time as the University's contractual performance obligations are satisfied. Revenue from cost-plus contracts is recognized as costs are incurred and includes a proportionate share of the fees earned. The percentage-of-completion method is used to recognize revenue on fixed price contracts based on various performance measures. From time to time, facts develop that require the University to revise its estimated total costs or revenues expected. The cumulative effect of revised estimates is recorded in the period in which the facts requiring revisions become known. Under time-and-materials contracts, labor and related costs are reimbursed at negotiated, fixed hourly rates. Revenue on time-and-materials contracts is recognized at contractually billable rates as labor hours and direct expenses are incurred. The full amount of anticipated losses on any type of contract is recognized in the period in which they become known.

## Contributions from Gifts, Grants, and Contracts

Private gifts and government grants that are not considered exchange transactions, including pledges, are recognized in the period received. Conditional gifts, with a barrier and right of return, are not recognized until the conditions on which they depend are substantially met or explicitly waived by the donor. Contributions of assets other than cash are recorded at estimated fair value. Contributions to be received after one year are discounted at an appropriate rate commensurate with the risks involved. Amortization of discount is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any, on the contributions. An allowance for uncollectible pledges receivable is provided based upon management's judgment, including such factors as prior collection history, type of contribution, and nature of fund-raising activity.

Contributions received with donor-imposed restrictions that are met in the same year as the gifts are received are reported in the net asset without donor restrictions class. Contributions of land, building, and equipment without donor-imposed restrictions concerning the use of such long-lived assets are reported in the net asset without donor restrictions class. Contributions of cash or other assets to be used to acquire land, building, and equipment with such donor restrictions are reported in the net asset with donor restrictions class; the restrictions are considered to be released at the time the long-lived assets are placed in service.

Grants and contracts for basic research and other sponsored programs are generally subject to restrictions and conditions that must be met before the University is entitled to funding. Accordingly, advances from granting agencies are generally considered refundable in the unlikely event specified services are not performed. The University recognizes contribution revenue on grants for basic research and other sponsored programs as the awards for such programs are expended, since expenditure in accordance with award terms typically results in the simultaneous release of restrictions and conditions imposed by the grantor.

At May 31, 2021, the University and IITRI also had unexpended grant awards of approximately \$14,140 for which revenue has not been recognized pending fulfillment of conditions associated with the awards, which generally coincides with expenditure.

Indirect cost recovery by the University on U.S. government grants and contracts is based upon predetermined negotiated rates or provisional rates and is recorded as grants and contracts revenue.

<u>Funding from the Coronavirus Aid, Relief, and Economic Security Act (CARES Act)</u>: In March of 2020, the University was allocated \$3,730 in funding through the Higher Education Emergency Relief Fund (HEERF I) as authorized in the CARES Act. As required by the Act, 50% of that allocation was directed to provide emergency financial aid grants to students and 50% to cover costs incurred by the university in connection with the coronavirus pandemic. At May 31, 2021 and 2020, the University awarded \$1,681 and \$184, respectively, in emergency financial aid grants to students. The University therefore recognized revenue of \$1,681 and \$184 from the institutional portion of the funding to the extent that it met the conditions to incur allowable expenses. At May 31, 2021 the University has recognized all revenue from the institutional allocation of the CARES Act as all conditions have been met.

<u>Funding from the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA):</u> In January of 2021, the University was allocated \$5,464 in funding through the Higher Education Emergency Relief Fund (HEERF II) as authorized in the CRRSAA Act. As required by the Act, \$1,865 of that allocation was directed to provide emergency financial aid grants to students and \$3,599 to defray university expenses associated with the coronavirus pandemic, including lost revenue. At May 31, 2021, the University awarded \$1,692 in emergency financial aid grants to students. The University recognized a pro rata share of revenue of \$3,265 from the institutional portion of the funding to the extent that it met the conditions to incur allowable expenses.

<u>Funding from the American Rescue Plan (ARP)</u>: In May of 2021, the University was allocated \$9,727 in funding through the Higher Education Emergency Relief Fund (HEERF III) as authorized in the ARP Act. As required by the Act, \$4,869 of that allocation was directed to provide emergency financial aid grants to students and \$4,858 to defray university expenses associated with the coronavirus pandemic, including lost revenue. At May 31, 2021, the University had not yet begun awarding emergency financial aid grants to students and therefore has recorded the institutional portion as deferred revenue to the extent that it met the conditions to incur allowable expenses.

<u>Restructuring Expenses</u>: In May of 2018, the University, under the direction of the Finance Committee, began an administrative assessment to find operational cost savings. The core areas of opportunity related to four items: (1) organizational restructuring to optimize service, realize process efficiencies and avoid redundancy of services, (2) elimination of policies and programs that were not cost effective, (3) redirect resources to mission centric and revenue generating activities and (4) consolidate the physical footprint and monetize rentable space. Restructuring expenses amounted to \$535 and \$1,938 for the fiscal years ended May 31, 2021 and 2020, respectively. The expenses included consulting services, retirement incentives, system/software improvements and restructuring/reorganization of departments.

<u>Investments</u>: Investments are reported at fair value. The fair values of investments in stocks, equity mutual funds, bonds, and fixed-income mutual funds are generally determined based on quoted market prices. Management's estimate of the fair value of private equity, venture capital, alternative funds and hedged fund investments is determined based on net asset values (NAV) provided by the external investment managers, as a practical expedient in measuring fair value. The valuations for these investments involve estimates, appraisals, assumptions, and methods, which are reviewed by the University.

Cash equivalents, consisting primarily of fixed-income securities and money market accounts with original maturities of three months or less, related to endowment funds are classified as investments. Investment transactions are recorded on the trade date. Realized gains and losses on the sale of investments are calculated on the basis of specific identification of the securities sold. Investment management fees and service charges are netted against investment income for financial reporting purposes.

<u>Notes Receivable</u>: Student notes receivable consist of Perkins loans and University loans. The University establishes valuation allowances for notes receivable based on estimates of future collectability.

<u>Inventory</u>: Inventories are stated at cost, which is determined by the first-in, first-out method for both the University and IITRI.

<u>Physical Properties</u>: The University's and IITRI's fixed assets are recorded at cost of construction or acquisition. The University and IITRI depreciate their land improvements, buildings, and equipment on the straight-line method over their estimated useful lives, which range from 3 to 50 years.

Upon sale or retirement of an asset, a gain or loss is recorded based on the net book value at the time of sale or retirement. Minor expenditures for renovations, construction, and replacement of equipment are charged to current operations and are not capitalized.

Impairment of Long-Lived Assets: The University and IITRI account for long-lived assets in accordance with the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Section 360 Subtopic 10, *Impairment or Disposal of Long-Lived Assets*. FASB ASC Section 360 Subtopic 10 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Management does not believe there are any impairments to long-lived assets.

<u>Beneficial Interest in Perpetual Trusts</u>: The University has a beneficial interest in certain perpetual trusts that are held by third parties and are reported at fair value. The University recognizes contribution revenue equal to its proportionate share of the fair value of the trust assets upon notification and determination that its right to receive benefits under the agreement is unconditional. Changes in the fair value of the University's interest in the trust assets are reflected as gains or losses in the period they occur.

<u>Split-Interest Agreements</u>: The University's split-interest agreements with donors consist of irrevocable charitable remainder trusts, annuity trusts, and charitable gift annuities for which the University is either the remainder beneficiary or both the trustee and the remainder beneficiary.

Assets held in trust for which the University serves as trustee are included in investments. In addition, the present value of the estimated future payments to be made to the donors and/or other beneficiaries is reported as an obligation under split-interest agreements. The liabilities are adjusted during the term of the agreements for changes in the value of the assets, accretion of the discount, and other changes in the estimates of future benefits.

Assets held in trust for which the University does not serve as trustee are not reported as investments in the consolidated financial statements. However, contribution revenue and a receivable are recognized at the date the trusts are established at the fair value of the trust assets, which represents the estimated present value of the expected future cash flows to be received.

<u>Income Taxes</u>: The University and IITRI have each received a determination letter from the Internal Revenue Service (IRS) stating that they are exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code except for tax on unrelated business income. It is management's belief that none of its activities have produced material unrelated business income, and that the University has operated in a manner that qualifies it for tax-exempt status.

U.S. generally accepted accounting principles require University management to evaluate tax positions taken by the University and IITRI and recognize a tax liability (or asset) if the University and IITRI have taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed tax positions taken by the University and IITRI and has concluded that as of May 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the consolidated financial statements. The University and IITRI are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The University and IITRI management believes it is no longer subject to income tax examinations for years prior to 2018.

<u>Use of Estimates</u>: The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

<u>Reclassifications</u>: Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

<u>Right of Use Assets and Lease Liabilities</u>: Right of use ("ROU") assets represent the University's right to use the underlying assets for the lease term and lease liabilities represent the net present value of the University's obligation to make payments arising from these leases. The lease liabilities are based on the present value of fixed lease payments over the lease term using the University's incremental borrowing rate on the lease commencement date or June 1, 2020 for leases that commenced prior to that date. If the lease includes one or more options to extend the term of the lease, the renewal option is considered in the lease term if it is reasonably certain the University will exercise the options. Operating lease expense is

recognized on a straight-line basis over the term of the lease. As permitted by ASC 842, leases with an initial term of twelve months or less ("short-term leases") are not recorded on the accompanying balance sheet.

The University has lease agreements with lease and non-lease components, which are accounted for as a single lease component under the practical expedient provisions of the standard. The University has lease agreements with terms less than one year. For the qualifying short-term leases, the University elected the short-term lease recognition exemption in which the Organization will not recognize ROU assets or lease liabilities for existing short-term leases of those assets in upon adoption.

Variable lease payments consist primarily of common area maintenance, utilities and taxes, which are not included in the recognition of ROU assets and related lease liabilities. Variable lease payments and short-term lease expenses were immaterial to the Organization's consolidated financial statements for the year ended May 31, 2021. The Organization's lease agreements do not contain material restrictive covenants.

The University is a lessee in several non-cancellable operating leases, for a research and development building space, networking and copier equipment. A finance lease is for the University's wireless system. The University determines if an arrangement is a lease at inception.

<u>Recent Accounting Guidance</u>: In February 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-02, *Leases (Topic 842)*. This ASU affects any entity that enters into a lease, with some specified scope exemptions. The main difference between previous GAAP and this ASU is the recognition of lease assets and lease liabilities by lessees for those leases classified as operating leases under previous GAAP. The University has implemented this ASU for the year ended May 31, 2021 using the modified retrospective approach. The University elected the optional practical expedient package which, among other things, includes retaining the historical classification of leases.

<u>COVID-19 Risk Factors</u>: The coronavirus pandemic, which surfaced in 2020 continues to wreak havoc around the world, with resulting business and social disruption. The overall operating cashflow generated by the university could be materially adversely affected. The extent to which the coronavirus (or any other disease or pandemic) may impact business activity will depend on future developments. These future developments are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and emergent variants and the actions required to contain the coronavirus or treat its impact, among others. The University is aware of these risks, and has put a number of plans in place to mitigate them. The University resumed in person classes at the beginning of the fall 2021 semester, and continues to offer hybrid and remote learning options as appropriate. Dormitories and food services are fully open and operational, and on campus resources including the library are open with modifications to allow for social distancing. The University has also partnered with several organizations to offer online learning options to international students unable to travel to campus.

## **NOTE 2 - INVESTMENTS**

Investments consist of the following at May 31:

	2021			2020
	<u>Fair Value</u>			<u>air Value</u>
Cash equivalents	\$	23,330	\$	16,431
Stocks		1,268		896
Equity mutual funds		175,305		144,954
Bonds (IITRI)		4,834		4,764
Fixed income mutual funds		65,549		61,319
Alternative funds		22,539		15,423
Hedge equity funds		1,339		12,119
Private equity and venture				
capital funds		16,443		3,816
Total investments	\$	310,607	\$	259,722

For investment purposes, the University pools substantially all assets of its endowment accounts. Each account owns "units" of the consolidated investment pool. The pooled assets are valued on an annual basis and a fair value per unit is determined, which is used to calculate the number of units purchased by accounts entering the pool and redeemed by accounts withdrawing from the pool. Income (interest, dividends, and rents) earned by the investment pool is distributed to the individual accounts on the basis of average units owned by each account in the pool during the year. The University relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and interest and dividend income. The objective is to provide a stable source of funds to help and support the ongoing operation and activities of the University. The hedge equity, private equity, and venture capital funds are longer-lived, and include an overall investment strategy designed to enhance return and diversity risk. The real estate asset is held for strategic purposes supporting the educational objectives of the University.

Return on investments consists of the following for the years ended May 31:

	<u>2021</u>	<u>2020</u>
Return on investments:		
Interest and dividends	2,483	5,607
Net realized and unrealized gain on investments	60,400	580
Net return on investments	<u>\$ 62,883</u>	\$ 6,187

The return on investments reflects income from investments held by IITRI of \$72 and \$179 for 2021 and 2020, respectively.

## **NOTE 3 - FAIR VALUE MEASUREMENT**

FASB ASC Section 820, *Fair Value Measurement*, defines fair value as the price that could be received for an asset or paid to transfer a liability in the University's principal or most advantageous market in an orderly transaction between market participants on the measurement date.

FASB ASC Section 820 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1: Quoted prices for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. In 2021 and 2020, the University used the following valuation techniques to measure the financial instruments fair value:

Level 1 consists of financial instruments, such as cash and cash equivalents, bond proceeds, mutual funds, stocks, and money market funds, whose value is based on quoted market prices published by a financial institution or exchange funds, exchange-traded instruments, and listed equities.

Level 2 consists of fixed income securities that use pricing inputs other than quoted prices for similar investments in active markets, quoted prices for identical or similar investments in markets that are not active, or inputs other than quoted prices that are observable including model-based valuation techniques.

Level 3 consists of investments for which there are no active markets. The University has beneficial interests in perpetual trusts as Level 3. Beneficial interests in perpetual trusts are held by various financial institutions. These values are based on the University's proportionate share of the investments. The fair values of the investments in these trusts are based on quoted market prices published by financial institutions.

The University's interests in alternative investment funds, such as hedged equity funds, private equity, venture capital funds, and real estate are reported at the NAV, which is used as a practical expedient to estimate fair value, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of May 31, 2021 and 2020, the University had no plans to sell investments at amounts different from NAV. The University has \$94,915 and \$31,358 for 2021 and 2020, respectively, of investments in alternative investment funds, which are reported at fair value. The University has concluded

that the NAV reported by the underlying fund approximates the fair value for these investments. These investments are redeemable with the fund at NAV under the original terms of the partnership agreements and/or subscription agreements and operations of the underlying funds. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the NAV of the funds and, consequently, the fair value of the University's interests in the funds. Furthermore, changes to the liquidity provisions of the funds may significantly impact the fair value of the funds.

Although a secondary market exists for these investments, it is not active and individual transactions are typically not observable. When transactions occur in this limited secondary market, they may occur at discounts to the reported NAV. Therefore, if the redemption rights in the funds were restricted or eliminated and the University were to sell these investments in the secondary market, it is reasonably possible that a buyer in the secondary market may require a discount to the reported NAV, and the discount could be significant. The University has \$26,163 in unfunded commitments relative to private equity, venture capital and hedged equity alternative investments.

#### Assets Measured on a Recurring Basis

The following tables present information about the University's financial assets that are measured at fair value on a recurring basis as of May 31, 2021 and 2020, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value:

			2021			Redemption	Days'

(1) One year from the initial investment

(2) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated statement of financial position.

<u>Investment strategy</u>: The investments above include multiple strategies in investments that are intended to either protect capital through unique investment opportunities while finding value when markets are less than optimal or to maximize returns greater than, while providing less correlation to, the volatility of the overall stock markets. Hedge and absolute return investments which seek to protect capital may include strategies such as equity long/short, relative value, even-driven, etc. The investment portfolio is diversified to minimize the concentration risk of any single security, class of securities, or asset class. Except as disclosed above, there is no provision for redemption during the life of these funds, and the timing of liquidation is unknown.

Aggregate investment liquidity as of May 31, 2021 and 2020, is presented below based on redemption or sale period:

\_ \_ \_ .

\_ \_ \_ \_

The amount of total loss for the period included in net return on investments attributable to the change in unrealized gain relating to assets still held at May 31, 2020	\$	-

## **NOTE 4 - ENDOWMENTS**

The University endowments include both donor-restricted endowment funds and funds designated by the board of trustees to function as endowments. As required by applicable standards, net assets associated with endowment funds, including funds designated by the board of trustees to function as endowment, are classified and reported based on the existence or absence of donor-imposed restrictions.

The board of trustees of the University has interpreted the State of Illinois Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gifts as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. Notwithstanding the foregoing, this determination is not intended to, and shall not, affect the University's authority under UPMIFA to spend any amounts from an endowment fund on a short-term basis even if the market value of the endowment fund is below the original value of the gifts by the donor. As the result of this interpretation, the University classifies as net assets with donor restrictions (a) the original value of gifts donated to the permanent endowment; (b) the original value of the subsequent gifts to the permanent endowments; and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time of accumulation is added to the fund.

The remaining portion of the donor-restricted endowment fund including unrealized gains and losses attributable to those gifts is classified as net assets with donor restrictions as there are specific purpose restrictions that have not been met by the University.

	 out Donor strictions	Wit Other <u>Funds</u>		/ith Donor Restrictions Underwater <u>Funds</u>			Total	Er	Total ndowment <u>Funds</u>

<u>Spending Policy and Strategies Employed for Achieving Objectives</u>: The University has adopted an investment policy to provide a stable source of funds to help and support the ongoing operations and activities of the University. Pursuant to this objective, the University seeks to earn a long-term total rate of return sufficient to produce growth of endowment assets, net of spending requirements of 5%, inflation, and investment expenses.

The purpose of the endowment funds is to facilitate donors' desires to make substantial long-term gifts to the community and to develop a new and significant source of revenue for the University. In doing so, the endowment fund will provide a secure, long-term source of funds to: (a) fund special programs; (b) ensure long-term growth; (c) enhance the University's ability to meet changing community needs; and (d) support the administrative expenses of the University as deemed appropriate.

To achieve these goals, the University's spending policy utilizes the total return concept of endowment spending. Under the method adopted by the University, interest and dividends as well as appreciation on investments held by the investment pool are made available for spending. The University's total endowment fund spending is based upon a target percentage of a subset of investments. The target percentage set by the board of trustees is 5% of the average quarterly endowment balance for the prior 12 quarters. The board of trustees set endowment distribution expenditure is \$11,945 for fiscal year 2021 and \$12,140 for fiscal year 2020. The board of trustees budgeted endowment distribution is \$12,365 for fiscal year 2022.

<u>Funds with Deficiencies</u>: From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor gave to the University to retain as a fund of perpetual duration. These deficiencies are the result of unfavorable investment returns in prior fiscal years, as well as appropriations deemed prudent, for certain programs, by the board of trustees.

The University has a policy that permits distribution for expenditure from underwater endowment funds, unless otherwise precluded by the donor intent or relevant laws and regulations. The target percentage set by the board of trustees is 5% of the average quarterly endowment balance for the prior 12 quarters. So as not to suspend certain programs, it was deemed prudent to appropriate \$2,315 in fiscal year 2021 and \$7,256 in fiscal year 2020 included in the total endowment distribution from the underwater endowment funds for the expenditure on the donor restricted program purposes.

The University made a board approved \$10,000 draw from its restricted endowment to finance the renovation of Kacek Hall (formerly Bailey Hall). The amount was paid back in May of 2021.

## NOTE 5 - PLEDGES RECEIVABLE

Pledges receivable consist of unconditional promises to give and are summarized as follows at May 31:

	<u>2021</u>			<u>2020</u>
Pledges receivable Discount to present value future cash flows	\$	15,414 (875)	\$	31,149 <u>(911</u> )
Net pledges receivable	\$	14,539	\$	30,238

The following is a summary showing the expected timing of collection of total gross unconditional pledges receivable outstanding as of May 31, 2021:

<u>Fiscal Year(s)</u>	Amount
Less than one year	\$ 5,670
1 to 5 years	9,694
More than 5 years	50
	<u>\$ 15,414</u>

Conditional pledges receivable as of May 31, 2021 total approximately \$16,254.

## **NOTE 6 - FINANCING RECEIVABLES**

The University's financing receivables consist of a revolving loan fund for Federal Perkins Loans for which the University acts as an agent for the federal government and institutional loan funds created by the University to assist students in funding their education. These loans are valued based on the outstanding principal balance, less an allowance for estimated losses. Interest earned on outstanding loan balances is recorded based on the terms of the individual loan agreements and continues to accrue even when past due.

The availability of funds for loans under the Federal Perkins Loan program is dependent on reimbursements to the pool from repayments on outstanding loans. Funds held in the federal loan programs of \$4,082 are ultimately refundable to the government and are classified as a liability in the consolidated statements of financial position as of May 31, 2021 and 2020, respectively.

Balances of financing receivables as of May 31, 2021, consist of the following:

		erkins _oans	 itutional <u>_oans</u>	<u>Total</u>		
Gross balance Allowances	\$	3,860 -	\$ 2,415 (680)	\$	6,275 (680)	
Balance at May 31, 2021	\$	3,860	\$ 1,735	\$	5,595	

Balances of financing receivables as of May 31, 2020, consist of the following:

	Perkins Institu <u>Loans Loa</u>							
Gross balance Allowances	\$	4,970 -	\$	2,593 (680)	\$	7,563 (680)		
Balance at May 31, 2020	\$	4,970	\$	1,913	\$	6,883		

For each class of financing receivables, the following table presents the credit quality indicator as determined by the delinquency status of the loan as of May 31, 2021. The delinquency status is updated monthly by the University's loan servicer.

	Perkins <u>Loans</u>			itutional . <u>oans</u>	<u>Total</u>		
Performing Nonperforming (defaulted)	\$	3,116 744	\$	940 1,475	\$	4,056 2,219	
Balance at May 31, 2021	\$	3,860	\$	2,415	\$	6,275	

## NOTE 6 - FINANCING RECEIVABLES (Continued)

The delinquency status as of May 31, 2020, is as follows:

		Perkins <u>Loans</u>			Total		
Performing Nonperforming (defaulted)	\$	4,225 745	\$	1,190 1,403	\$	5,415 2,148	
Balance at May 31, 2020	\$	4,970	\$	2,593	\$	7,563	

The aging of financing receivables as of May 31, 2021, is presented as follows:

Aging	<u>3´</u>	<u>1-60</u>	<u>61</u>	I <u>-90</u>	<u>91+</u>	<u>Pa</u>	Total ast Due	Total S <u>urrent</u>	<u>Total</u>
Perkins Institutional	\$	85 56	\$	84 1	\$ 819 1,507	\$	988 1,564	\$ 2,872 851	\$ 3,860 2,415
Total	\$	141	\$	85	\$ 2,326	\$	2,552	\$ 3,723	\$ 6,275

The aging of financing receivables as of May 31, 2020, is presented as follows:

Aging	<u>31-60</u>	<u>61-90</u>	<u>91+</u>	Total <u>Past Due</u>	Total <u>Current</u>	<u>Total</u>
Perkins Institutional	\$  63 20	\$  150 49	\$882 	\$ 1,095 <u>1,606</u>	\$ 3,875 	\$ 4,970 2,593
Total	\$83	\$ 199	\$ 2,419	\$ 2,701	\$ 4,862	\$ 7,563

Allowances for estimated losses are established based on prior collection experience and observed trends in the rate of default, as well as a consideration of current economic trends and indicators. Loan balances are written off when they are deemed to be ultimately uncollectible. Since student loans under the Perkins loan program can be assigned to the government when no longer collectible, a Perkins loan write-off will reduce the amount refundable to the government.

Changes in allowance for estimated losses on financing receivables as of May 31, 2021, are presented as follows:

Balance at June 1, 2020 Write-off	\$ 680 -
Increase reserve	 
Balance at May 31, 2021	\$ 680

# NOTE 6 - FINANCING RECEIVABLES (Continued)

Changes in allowance for estimated losses on financing receivables as of May 31, 2020 are presented as follows:

Balance at June 1, 2019 Write-off	\$ 655
Increase reserve	 25
Balance at May 31, 2020	\$ 680

# NOTE 7 - PHYSICAL PROPERTIES

The University's consolidated physical properties consisted of the following as of May 31:

	<u>2021</u>	<u>2020</u>
Land and land improvements	\$ 24,082	\$ 24,092
Building and building improvements	537,444	508,467
Equipment	108,753	106,032
Right of use asset	6,040	2,369
Construction in progress	27,339	27,592
Total physical properties	703,658	668,552
Less accumulated depreciation	357,377	338,284
Physical properties, net	<u>\$ 346,281</u>	<u>\$ 330,268</u>

## NOTE 8 - BENEFICIAL INTEREST IN PERPETUAL TRUSTS

The University is an income beneficiary of certain irrevocable trusts that are held and controlled by independent trustees. The University has no equity interest in the principal of these trusts. At May 31, 2021 and 2020, the share of these trusts from which the University derives income had a combined fair value of \$26,811 and \$21,204, respectively. These trusts provided investment income without donor restrictions of \$738 and \$1,310 in fiscal years 2021 and 2020, respectively.

# NOTE 9 - NOTES AND BOND PAYABLE

Notes and bonds payable consist of the following at May 31:

		<u>2021</u>	<u>2020</u>
IFA Bonds, Series 2018 payable in varying installments through 2034 IFA Bonds, Series 2019, payable in varying	3.60%	\$ 37,168	\$ 38,774
installments through 2042 IITRI - IFA Series 2014, payable in varying	5% and 4%	120,085	122,915
installments through 2034	Variable	3,880	4,400
Bond premium payable - series 2019		 13,323	 14,938
		174,456	181,027
Short-term line of credit	Variable	33,075	19,775
Bond issuance costs		 (1,785)	 (1,855)
		\$ 205,746	\$ 198,947

The following is a summary of required principal payments on outstanding secured obligations as of May 31, 2021:

Fiscal year ending:	Bon	<u>d Principal</u>	LOC	<u> Principal</u>	<u>Total</u>
2022	\$	5,161	\$	33,075	\$ 38,236
2023		5,376		-	5,376
2024		5,596		-	5,596
2025		5,831		-	5,831
2026		6,071		-	6,071
2027 and beyond		133,098			 133,098
	\$	161,133	\$	33,075	\$ 194,208

## NOTE 9 – NOTES AND BOND PAYABLE (Continued)

In June of 2018, the University issued \$40,250 in fixed rate revenue bonds through the Illinois Finance Authority (IFA Series 2018) and Wintrust Bank. Proceeds from the bonds were used to reimburse the University for the costs of the acquisition of on campus student resident facilities, refund the IFA Series 2009 Bonds issued in the original principal amount of \$30,000, of which \$25,440 remained outstanding, and to finance or reimburse the University for certain of the costs incurred in connection with the issuance of IFA Series 2018 and the refunding of the IFA Series 2009. The fixed rate on the Series 2018 Bonds is 3.6% per annum.

In December of 2019, the University issued \$122,915 in fixed rate revenue bonds through the Illinois Finance Authority (IFA Series 2019). The bonds were issued at a premium of \$15,611, which is being amortized against interest expense over the call period of ten years. Proceeds from the bonds were used to refund the IFA Series 2006 Bonds issued in the original principal amount of \$160,000, of which \$135,125 remained outstanding, and to finance or reimburse the University for certain of the costs incurred in connection with the issuance of IFA Series 2019 and the refunding of the IFA Series 2006. The refunding lowered principal and resulted in an effective interest rate of 3.52%. The fixed rate on the Series 2019 Bonds is 5% and 4% with serial bonds maturing from September 2020 through 2041.

In August 2004, IITRI issued an \$18,820 bond issue of adjustable rate demand debt under the tax-exempt authority of the Illinois Finance Authority (IFA Series 2004). The proceeds from the sale were used to renovate and construct lab and office space; establish a debt service reserve fund and pay certain costs incurred in connection with the bond issue. In February 2014, IITRI entered into a bond and loan agreement with the Illinois Finance Authority and North Shore Community Bank. IITRI issued a \$10,400 Revenue Refunding Bond (IFA Series 2014) that was sold to North Shore Community Bank and Trust. IITRI used the proceeds and certain other funds to refund and redeem the Series 2004 Bond. Principal payments on the Bond commenced on February 1, 2015 in the amount of \$520 per year and continue until the bond matures in 2034. The interest rate is variable and reset by North Shore Community Bank on a monthly basis. At May 31, 2021 and 2020 the rates were 1.00% and 1.00%, respectively.

The University maintains a line-of-credit agreement that allow borrowings up to \$20,000 in 2021 and2020. Borrowings under the line of credit will bear interest at the prime commercial rate or adjusted LIBOR with interest being payable on a monthly basis. The borrowing under the line of credit will be payable on demand, but if no demand is made, borrowing shall automatically mature on the next interest payable date following the date the loan is made. The amount outstanding under the agreement was \$13,300 and \$19,775 as of May 31, 2021 and 2020. The line of credit agreement is renewable annually in February of each fiscal year.

In August 2020, the University entered into an additional line-of-credit agreement that allows borrowings up to \$25,000 in 2021. Borrowings under the line of credit will bear interest at the prime commercial rate or adjusted LIBOR with interest being payable on a monthly basis. The borrowing under the line of credit will be payable on demand, but if no demand is made, borrowing shall automatically mature on the next interest payable date following the date the loan is made. The amount outstanding under the agreement was \$19,775 as of May 31, 2021. The line of credit agreement is renewable annually in August of each fiscal year and expires in August 2022.

The University and IITRI are subject to certain debt covenants. As of May 31, 2021, management believes those covenants have been met.

## NOTE 10 – EMPLOYEE BENEFIT PLANS

<u>Retirement Plan</u>: Substantially all full-time employees of the University and IITRI are participants in defined contribution retirement plans that are funded by contributions from the University, IITRI, and participating employees. Total contributions made under the plans for the years ended May 31, 2021 and 2020 were \$4,877 and \$7,198 by the University and \$453 and \$399 by IITRI, respectively.

<u>Healthcare Benefits Plans</u>: The University maintains a healthcare benefits plan (the Plan) that provides for certain major medical, surgical, and other benefits for all eligible employees and dependents. The Plan is partially self-funded by the University, subject to stop-loss arrangements. Under this Plan, the University makes contributions to cover benefits not funded by employees, limited by stop-loss amounts.

IITRI offers a healthcare benefits plan (the Plan) that provides for certain medical and dental expense coverage, including certain vision discounts for all eligible employees and dependents. The Plan is fully insured and underwritten by Blue Cross Blue Shield of Illinois and Dearborn National. Under this Plan, premium contributions are shared by both IITRI and plan participants.

<u>Accrued Postretirement Benefit Obligation</u>: The University created a retirement incentive program for tenured faculty in November 2006. As part of the incentive program, certain medical benefits are offered to participants. A reconciliation of the plan's funded status with the accrued benefit cost reported on the consolidated statements of financial position at May 31, is presented below. The accumulated postretirement benefit obligation disclosed below is the actuarial value of future benefits used on employees' service rendered through the measurement date:

	<u>2021</u>		<u>2020</u>
Change in accumulated postretirement benefit obligations at beginning of the period	\$ 1.056	\$	1,810
Service cost	12	•	10
Interest cost	28		64
Actuarial gain	(15)		(679)
Actuarial benefit payments net contributions	 <u>(115</u> )		<u>(149</u> )
Accumulated postretirement benefit obligation at			
end of the period	\$ 966	\$	1,056

# NOTE 10 - EMPLOYEE BENEFIT PLANS (Continued)

The University follows FASB ASC Section 715 Subtopic 60, *Defined Benefit Plans – Other Postretirement*. The accumulated change to net assets without donor restrictions consists of amounts that have not yet been recognized in net periodic benefit cost at May 31, are as follows:

	<u>2021</u>		<u>2020</u>	
Change in fair value of plan assets:				
Fair value of plan assets at beginning of period	\$	-	\$	-
Employer contribution		115		149
Participant contributions		28		27
Total benefit payments		<u>(143</u> )		<u>(176</u> )
Fair value of plan assets at end of the period	\$		\$	
Funded status	\$	<u>(966</u> )	\$	(1,056)

These amounts will be subsequently recognized in future years as components of net periodic pension cost. The estimated amortization of transition obligation, prior service cost, and net losses in the next fiscal year is \$13, \$28, and \$72, respectively.

The components of net periodic postretirement benefit cost for the years ended May 31, are as follows:

	<u>2021</u>		<u>2020</u>	
Service cost Interest cost	\$	12 28	\$	10 64
Net periodic postretirement benefit cost	\$	40	\$	74

## NOTE 10 - EMPLOYEE BENEFIT PLANS (Continued)

#### Actuarial Assumptions

The weighted average assumptions used in the accounting for the postretirement plan for the years ended May 31, are shown below:

	<u>2021</u>	<u>2020</u>
Discount rate (expense)	2,78 %	3.69 %
Discount rate (obligation)	3.08	2.78
Healthcare cost trend rates:		
Healthcare cost trend rate assumed for next year	4.90	5.90
Ultimate rate	5.69	4.50
Year that the ultimate rate is reached	2029	2023

Assumed healthcare cost trend rates have a significant effect on the amounts reported for healthcare plans. A one-percentage point change in assumed healthcare cost trend rates would have the following effects for the fiscal years ended May 31:

	<u>20</u>	<u>)21</u>	<u>2</u>	<u>020</u>
Effect on total service cost and interest cost:				
One-percentage point increase	\$	4	\$	8
One-percentage point decrease		(4)		(8)
Effect on year-end postretirement benefit obligation:				
One-percentage point increase	\$	44	\$	71
One-percentage point decrease		(36)		(65)

## Estimated Future Benefits Payments

The following benefit payments, which reflect expected future service, are expected to be paid for each of the fiscal years ending May 31:

<u>Fiscal Year</u> :		
2022	\$ 117	\$ 115
2023	94	114
2024	90	93
2025	86	90
2026	83	86
2027-2029	352	367

## NOTE 10 - EMPLOYEE BENEFIT PLANS (Continued)

## Plan Amendment

Effective August 1, 2007, the plan was amended to eliminate post-65 benefits for all retirees, both current and future. There was also a group of faculty participants who were offered a special option under which the University would reimburse their premiums for post-65 retiree coverage. This special benefit option was only available through May 31, 2008. Participants had to sign up by this date in order to participate.

## NOTE 11 - NET ASSETS

Certain net assets without donor restrictions are designated for specific purposes by the board of trustees of the University and are summarized as follows at May 31:

	<u>2021</u>			<u>2020</u>		
Board-designated endowment Undesignated	\$	69,402 106,311	\$	63,272 100,195		
Total	\$	175,713	\$	163,467		

Net assets with donor restrictions consist of the following at May 31:

	<u>2021</u>			<u>2020</u>		
General operations	\$	19,760	\$	32,207		
Endowment		233,259		190,771		
Endowment pledges		1,664		1,920		
Donor-designated for plant		1,955		2,289		
Donor-restricted revolving loan funds		4,571		4,709		
Scholarships		1,827		1,493		
Split-interest annuity agreements		1,472		1,002		
Beneficial interest in perpetual trusts		26,811		21,204		
Total	\$	291,319	\$	255,595		

## **NOTE 12 - FUNCTIONAL CLASSIFICATION OF EXPENSES**

Operating and nonoperating expenses are reported in the consolidated statements of activities by natural business category. The University's primary program services are instruction and research. Expenses reported as academic support, student services, institutional support, and auxiliary enterprises are incurred in support of these primary program services. Expenses are allocated based on square footage.

Consolidated expenses by functional classification are as follows for the years ended May 31:

2021	Program <u>Activities</u>		Supporting <u>Activities</u>		<u>Fundraising</u>		<u>Total</u>	
Operating expenses:	\$	58,855	\$	1,564	¢	\$	60,419	
Faculty salaries Administrative salaries	φ	,	φ	15,735		φ	45,083	
		23,749		,	5,599		,

Depreciation	 11,641		4,694		-		16,335
Total operating expenses	210,500		50,058		7,495		268,053
Restructuring expenses	 834		1,104				1,938
Total expenses	\$ 211,334	\$	51,162	\$	7,495	\$	269,991

## **NOTE 13 - LEASES**

The University has obligations as a lessee for research and development building space, networking and copier equipment, and a wireless system. The wireless system is classified as a finance lease while the other leases are classified as operating leases. Payments due under the lease contracts include fixed payments plus variable payments. The University's research and development building space require it to make variable payments for the University's share of the building's property taxes, insurance, and common area maintenance. These variable lease payments are not included in lease payments used to determine lease liability and are recognized as variable costs when incurred.

These leases have remaining lease terms of 1 year to 5 years.

Operating leases and the finance lease are included in physical properties, less accumulated depreciation and lease liabilities in our consolidated balance sheets.

The components of lease expense were as follows:

Year Ending May 31:	<u>2021</u>
Operating lease cost	<u>\$ 999</u>
Financing lease cost Amortization of right-of-use asset Interest on lease liability	\$  338 <u>  39</u>
Total finance lease cost	<u>\$ 377</u>

# NOTE 13 – LEASES (Continued)

Supplemental cash flow information related to leases is as follows:

Year Ending May 31:		<u>2021</u>
Cash paid for amounts included in the measurement of lease liabilities		
Operating cash flows from operating leases Operating cash flows from finance lease Financing cash flows from finance lease	\$ \$ \$	1,051 461 39
Right-of-use assets obtained in exchange for lease obligations		
Operating leases Finance lease	\$ \$	-
Supplemental balance sheet information related to leases is as follows:		
Year Ending May 31:		<u>2021</u>
Operating leases Right of use asset, net of accumulated depreciation Lease liability	\$ \$	2,775 3,354
Finance lease Right of use asset, net of accumulated depreciation Lease liability	\$ \$	1,439 963
Weighted average remaining lease terms Operating leases		3 years

Finance lease	2 years
Weighted average discount rate	
Operating leases	1.4%
Finance lease	2.8%

## **NOTE 13 – LEASES** (Continued)

Maturities of lease liabilities were as follows:

Year Ending May 31:	•	Operating leases		
2022 2023	\$	1,095 1,118	\$	500 500
2024		1,144		-
2025		22		-
2026		18		
Total lease payments		3,397		1,000
Less imputed interest		(43)		(37)
Total	\$	3,354	\$	963

In January 2006, the University entered into a 55-year ground lease agreement with Townsend Chicago, LLC (Townsend). On June 1, 2020, the University recorded \$3,879 in other receivables that represents the present value of the future minimum lease payments to be received from Townsend.

Future minimum lease payments to be received for the next five years are as follows:

Year Ending May 31:	
2022	\$ 173
2023	176
2024	180
2025	183
2026	187

In May 2012, the University entered into an agreement with Chicagoland Entrepreneurial Center (d/b/a 1871) for space on the twelfth floor of the Merchandise Mart through April 30, 2013. Prior to its expiration, the University elected to exercise its option to extend the agreement through June 30, 2020. The agreement was not renewed in fiscal year 2021.

## NOTE 14 - BROADBAND LICENSE AND EXCESS CAPACITY LEASES

The University had held two licenses -with the Federal Communications Commission (FCC) since 1976. The license period for each channel is 10 years in duration and requires the payment of a nominal licensing fee with each renewal. In 2005, the FCC split the channels into two categories: Educational Broadband Services (EBS), and Broadband Radio Services (BRS). The FCC allows commercial entities to own the licensing to BRS channels, but only educational institutions can own the licensing to EBS channels.

## NOTE 14 - BROADBAND LICENSE AND EXCESS CAPACITY LEASES (Continued)

The University had leased the excess capacity on its two licensed channels to Clearwire Spectrum Holdings III, LLC (Clearwire). In December 2017, the University entered into an agreement with Clearwire to cancel one of its existing license with the FCC on the BRS channel and terminate the related lease agreement with Clearwire for that channel's excess capacity to permit Clearwire to obtain the channel from the FCC. In February 2018 the license on that channel was cancelled with the FCC.

In May 2021, the University entered into an agreement to sell its remaining license in its EBS channel to Clearwire Spectrum Holdings III LLC subject to approval by the FCC. The total consideration to be paid for the license was \$55,000. The consideration is payable by Clearwire to the University according to the following payment schedule:

<u>Year Ending May 31</u> :	
2022	\$ 28,000
2023	3,000
2024	3,000
2025	3,000
2026	3,000
Thereafter	 15,000
	\$ 55,000

This is expected to be a transaction accounted for in fiscal year May 31, 2022 once approved by the FCC.

## NOTE 15 – CONTINGENCIES

The University is a defendant in legal proceedings arising in the ordinary course of its business. Although the outcome of these proceedings cannot presently be determined, in the opinion of management, disposition of these proceedings will not have a material adverse effect on the financial position of the University.

The amount of grants and contracts reflected in the consolidated financial statements is subject to review and adjustment by contracting agencies, principally, the federal government. The amount, if any, of expenses that may be disallowed by the contracting agencies cannot be determined at this time. It is the opinion of management that such disallowances, if any, will not be significant.

The University received student financial aid and CARES Act, CRRSAA, and ARP funding from the U.S. Department of Education for the fiscal years ended May 31, 2021 and 2020. The disbursement of funds received under such programs generally requires compliance with terms and conditions specified in federal regulations and are subjected to audit by U.S. Department of Education and possible disallowance of certain expenditures. The University has not had any significant disallowance of student financial aid in the past and expects such amounts, if any, to be immaterial.

## NOTE 16 – LIQUIDITY AND AVAILABILITY

The University's financial assets available within one year of the statement of financial position date for general expenditure are as follows:

			2020						
	Ur	University		IITRI	RI <u>Consolidated</u>		Con	<b>Consolidated</b>	
Financial assets:									
Cash and cash equivalents	\$	3,303	\$	8,788	\$	12,091	\$	6,464	
Non-endowment investments		3,105		4,834		7,939		13,232	
Accounts receivable, net		17,631		11,055		28,686		19,555	
Pledge payments available for operations		5,670		-		5,670		18,950	
Subsequent year's endowment payout		12,365		-		12,365		11,978	
Total financial assets available within one year		42,074		24,677		66,751		70,179	
Liquidity resources:									
Bank lines of credit		11,925				11,925			
Total financial assets and liquidity resources									
available within one year	\$	53,999	\$	24,677	\$	78,676	\$	70,179	

The University's cash flows have seasonal variations during the year attributable to tuition billing and a concentration of contributions received at calendar and fiscal year end. To manage liquidity, the University maintains a line of credit that is drawn upon as needed during the year to manage cash flows. As of May 31, 2021 and 2020, the amount outstanding under the lines of credit amounted to \$33,075 and \$19,775, respectively.

In addition, as of May 31, 2021 and 2020 the University has \$66,531 and \$60,371, respectively, in funds functioning as endowment net of subsequent year appropriation, which is available for general expenditure with Board approval.

## NOTE 17 - SUBSEQUENT EVENTS

In connection with the preparation of the consolidated financial statements and in accordance with FASB ASC Topic 855, *Subsequent Events*, management evaluated subsequent events after the statement of financial position date of May 31, 2021 through February 17, 2022, which was the date the consolidated financial statements were issued.

July 19, 2021 the University entered into a 40 year agreement with Harrison Street Energy Partners, LLC under which Harrison Street agrees to operate, maintain, and improve the utility system and to provide Illinois Tech with utility services including steam, chilled water, and electricity. The agreement includes a long term equipment lease. In consideration for the right to operate the system, provide power to Illinois Tech and lease certain equipment, the University received payment of \$35,000. This amount, less the portion allocated to the long-term equipment lease, will be amortized over the term of the agreement.

## NOTE 17 - SUBSEQUENT EVENTS (Continued)

On May 18, 2021 the University entered into an asset purchase agreement with Clearwire Spectrum Holdings III LLC to assign and transfer the license for a certain Educational Broadband Service. The assignment and transfer of license will be effective on the closing date. Total consideration to be paid for the license will be \$55,000 with \$28,000 to be paid in fiscal year 2022 and the remainder to be paid in installments over the subsequent 9 years.

## NOTE 18 - UNITED STATES DEPARTMENT OF EDUCATION SUPPLEMENTAL DISCLOSURES

The Department of Education issued regulations on September 23, 2019, which became effective July 1, 2020, regarding additional disclosures deemed necessary to calculate certain ratios for determining sufficient financial responsibility under Title IV.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accompanying schedule of expenditures of federal awards (the Schedule) summarizes the federal awards received by the Illinois Institute of Technology (the University) under programs of the federal government for the fiscal year ended May 31, 2021. The Schedule excludes expenditures of federal awards of IIT Research Institute, a subsidiary of the University. Expenditures of federal awards for IIT Research Institute will be audited in accordance with Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) separately.

For purposes of the Schedule, federal awards include all grants, contracts, and similar agreements entered into directly between the University and agencies and departments of the federal government and all subawards to the University by nonfederal organizations pursuant to federal grants, contracts, and similar agreements. The University's federal programs include:

Student Financial Assistance Cluster - Includes certain awards to provide financial assistance to students primarily under the Federal Pell Grant (Pell), Federal Work Study (FWS), and the Federal Supplemental Educational Opportunity Grant (FSEOG) programs of the U.S. Department of Education. Also, the University receives awards to make loans to eligible students under the Federal Direct Student Loan Program (FDL).

*Research and Development Cluster* - Includes awards for research and development activities at the University sponsored by various agencies of the federal government and pass through entities.

*Other Federal Awards* - Includes awards for program activities at the University sponsored by various agencies of the federal government and pass through entities.

Total expenditures in the Schedule of approximately \$84,683,000 do not directly agree to the revenue line items on the University's May 31, 2021 consolidated statement of activities. Federal expenditures and indirect cost revenue are classified in the accompanying consolidated statement of activities as government grants and contracts revenue, totaling approximately \$43,303,000 in federal expenditure and indirect cost revenue of approximately \$4,345,000, relate to the University. Government grants and contracts consist of approximately \$1,203,000 of awards received from states and local sources, with the balance of approximately \$11,145,000 related to IIT Research Institute, a consolidated separate legal entity. Federal student loans activity in the Schedule of approximately \$37,035,000 is not included in the consolidated statement of activities.

<u>Expenditure Recognition</u>: Expenditures are recognized in the period they are incurred. Award reporting periods do not necessarily coincide with the fiscal reporting period of the University. The existence of certain credit balances on the Schedule is primarily due to the reclassification of expenditures incurred recorded in the University's prior fiscal reporting period.

## NOTE 2 - INDIRECT COSTS

The University has four-year predetermined fixed indirect cost rates, effective June 1, 2019 through May 31, 2023, which have been negotiated with its cognizant agency, U.S. Department of Health and Human Services. The predetermined fixed rates were based on the University's financial information for fiscal year 2018. The base rates for on and off campus and US Food and Drug Administration research were 54%, 24%, and 11% of modified total direct costs, respectively. Approximately \$4,345,000 of indirect costs were reimbursed to the University during the year ended May 31, 2021. The University does not use the de minimus indirect cost rate permitted under the Uniform Guidance.

## **NOTE 3 - FEDERAL STUDENT LOAN PROGRAMS**

Loans made by the University to eligible students under federal student loan programs and federally guaranteed loans issued to students of the University during the fiscal year ended May 31, 2021 are summarized as follows:

Perkins FDL	\$ (2,000) 37,034,876
Total federal student loan program	\$ 37,032,876

The Perkins program is administered directly by the University and balances and transactions relating to this program are included in the University's consolidated financial statements. The balance of loans outstanding consist of the following amounts:

Outstanding balance as of May 31, 2020	\$ 4,970,321
Loans disbursed	(2,000)
Repayment	(1,104,621)
Cancellations	 (3,665)
Outstanding balance as of May 31, 2021	\$ 3,860,035

The University is responsible only for the performance of certain administrative duties with respect to the FDL, and accordingly, these loans are not included in its consolidated financial statements, and it is not practical to determine the balance of loans outstanding to students and former students of the University under these programs at May 31, 2021.

#### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Trustees Illinois Institute of Technology Chicago, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Illinois Institute of Technology and Subsidiaries (the "University"), which comprise the consolidated statement of financial position as of May 31, 2021, and the related consolidated financial statements, and have issued our report thereon dated November 23, 2021, except as to note 18, which is as of February 17, 2022.

## Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the University's consolidated financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the University's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the consolidated financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CROWE LLP

Crowe LLP

Chicago, Illinois November 23, 2021, except as to note 18, which is as of February 17, 2022

#### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

The Board of Trustees Illinois Institute of Technology Chicago, Illinois

## Report on Compliance for Each Major Federal Program

We have audited Illinois Institute of Technology's (University) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended May 31, 2021. The University's major federal programs of auditor's results section of the accompanying schedule of findings and questioned costs.

The University's consolidated financial statements include the operations of IIT Research Institute, which received federal awards and are not included in the University's schedule of expenditures of federal awards during the year ended May 31, 2021. Our audit, described below, did not include the operations of IIT Research Institute because their federal expenditures were included in a separate Single Audit for their fiscal year ended September 30, 2021.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

## **Opinion on Each Major Federal Program**

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended May 31, 2021.

## Report on Internal Control Over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control other compliance with a type of compliance is a network deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance and Report on Financial Responsibility Supplemental Schedule Required by US Department of Education

We have audited the consolidated financial statements of Illinois Institute of Technology as of and for the year ended May 31, 2021, and have issued our report thereon dated November 23, 2021, except as to note 18, which is as of February 17, 2022, which contained an unmodified opinion on those consolidated financial statements. Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards as required by Uniform Guidance and the Financial Responsibility Supplemental Schedule as required by the US Department of Education, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to

the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and Financial Responsibility Supplemental Schedule are fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.
