# **Independent Auditors' Report**

The Board of Trustees Illinois Institute of Technology:

We have audited the accompanying consolidated statements of financial position of Illinois Institute of Technology (the University) as of May 31, 2008 and 2007, and the related consolidated statements of activities and cash flows for the years then ended. These consolidated financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Illinois Institute of Technology as of May 31, 2008 and 2007, and the changes in their net assets and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

As discussed in note 8 to the consolidated financial statements, the University adopted the provisions of Statement of Financial Accounting Standards No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, effective May 31, 2008.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 2, 2008 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was performed for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic consolidated financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic consolidated financial statements taken as a whole.

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

#### (1) Nature of Organization

# Illinois Institute of Technology

Illinois Institute of Technology (the University) is a private not-for-profit coeducational technical institution that is dedicated to superior teaching and excellent scholarship. Located in Chicago, Illinois, the University enrolls a diverse student body from across the nation and a number of foreign countries.

IIT India is a private not-for-profit coeducational technical institution that is dedicated to superior teaching and excellent scholarship. Located in Bangalore, India, the institution services students from across India.

IIT France is a private not-for-profit entity located in Paris, France. The entity has been created to promote French and European students to the programs of the University and to welcome visiting students from the University.

#### IIT Research Institute

IIT Research Institute (IITRI) is a not-for-profit corporation working for the advancement of knowledge and the beneficial application of science to meet the needs of society. IITRI's articles of incorporation provide that in addition to its primary purpose, it will support and assist the University and, in event of dissolution, IITRI's assets would be distributed to the University. Members of the executive committee of the board of trustees of the University elect IITRI's Board of Governors. IITRI also prepares separate annual financial statements as of September 30, its fiscal year-end.

# (2) Summary of Significant Accounting Policies and Reporting Practices

#### (a) Principles of Consolidation

The accompanying consolidated financial statements, which have been prepared on the accrual basis of accounting, include the accounts of Illinois Institute of Technology, IIT India, IIT France, and IITRI. All significant intercompany transactions between these entities have been eliminated from the accompanying consolidated financial statements.

# (b) Basis of Presentation

The University maintains its accounts in accordance with the principles and practices of fund accounting. Fund accounting is the procedure by which resources for various purposes are classified for accounting purposes in accordance with activities or objectives specified by donors.

For financial statement reporting purposes, however, the University's financial statements have been prepared to focus on the organization as a whole and to present balances and transactions in accordance with donor-imposed restrictions.

7

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

Net assets and related activity are classified and reported as follows:

*Unrestricted* – Net assets that are not subject to donor-imposed restrictions.

**Temporarily Restricted** – Net assets that are subject to donor-imposed restrictions that will be met either by actions of the University or the passage of time. Items that affect this net asset category are gifts for which restrictions have not been satisfied and annuity and life income gifts for which the ultimate purpose of the proceeds is not permanently restricted.

**Permanently Restricted** – Net assets that are subject to donor-imposed restrictions that require them to be maintained permanently by the University. Items that affect this net asset category include gifts wherein donors stipulate that the corpus be held in perpetuity (primarily gifts for endowment and providing loans to students) and only the income be made available for program operations, and annuity and life income gifts for which the ultimate purpose of the proceeds is permanently restricted.

# (c) Operations

Operating results in the consolidated statements of activities reflect all transaction increasing or decreasing unrestricted net assets except those items associates with long-term investment, interest expense, and other infrequent gains, losses, revenues, and expenses.

#### (d) Revenue

Revenue is reported as an increase in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or law. Expiration of temporary restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between applicable classes of net assets.

Private gifts, including pledges, are recognized in the period received. Conditional pledges are not recognized until the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at estimated fair value. Contributions to be received after one year are discounted at an appropriate rate commensurate with the risks involved. Amortization of discount is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any, on the contributions. An allowance for uncollectible pledges receivable is provided based upon management's judgment, including such factors as prior collection history, type of contribution, and nature of fund-raising activity.

8

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

Contributions received with donor-imposed restrictions that are met in the same year as the gifts are received are reported as revenue of the unrestricted net asset class. Contributions of land, building, and equipment without donor-imposed restrictions concerning the use of such long-lived assets are reported as revenue of the unrestricted net asset class. Contributions of cash or other assets to be used to acquire land, building, and equipment with such donor restrictions are reported as revenue of the temporarily restricted net asset class; the restrictions are considered to be released at the time of acquisition of such long-lived assets.

Revenue from University government grant and contract agreements is recognized as it is earned through expenditure in accordance with the agreement.

Tuition and other revenue received prior to the end of one fiscal year, which relates to future periods, are recorded as deferred revenue.

IITRI's research project revenue results from contract research and other services under a variety of contracts, some of which provide for reimbursement of cost plus fees and others, which are fixed-price or time and materials type contracts. IITRI generally recognizes revenue when a contract has been executed, the contract price is fixed or determinable, delivery of the services or product has occurred, and collectibility of the contract price is considered probable. Revenue on cost-plus contracts is recognized as costs are incurred and include a proportionate share of the fees earned. The percentage-of-completion method is used to recognize revenue on fixed contracts based on various performance measures. From time to time, facts develop that require IITRI to revise its estimated total costs or revenues expected. The cumulative effect of revised estimates is recorded in the period in which the facts requiring revisions become known. The full amount of anticipated losses on any type of contract is recognized in the period in which they become known. Under time-and-materials contracts, labor and related costs are reimbursed at negotiated, fixed hourly rates. Revenue on time-and-materials contracts is recognized at contractually billable rates as labor hours and direct expenses are incurred.

Historically, governmental clients have been a major source of revenue for IITRI. For the fiscal years ended May 31, 2008 and 2007, these governmental clients accounted for approximately 42% and 48%, respectively, of IITRI's operating revenue of \$26,555 and \$25,110 respectively. In addition, IITRI has one significant industrial customer, which comprised approximately 28% and 36%, respectively, of their contract revenue in 2008 and 2007. Included in IITRI's revenue for 2008 and 2007 and accounts receivable at May 31, 2008 and 2007 are unbilled receivables in the amounts of approximately \$2,111 and \$3,923, respectively.

The amount of contract and grant revenue reflected in the consolidated financial statements is subject to review and adjustment by contracting agencies, principally the federal government. The amount, if any, of expenditures which may be disallowed by the contracting agencies cannot be determined at this time. It is the opinion of management that such disallowances, if any, will not be significant.

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

#### (e) Investments

Investments are reported at fair value. The fair values of investments are generally determined based on quoted market prices or estimated fair values provided by external investment managers or other sources. Direct investments in real estate included in the investment portfolio are recorded at fair value determined based on the discounted value of the future cash flows. Management's estimate of the fair value of private equity and hedge fund investments is determined based on valuations provided by the external investment managers. The valuations for these investments necessarily involve estimates, appraisals, assumptions, and methods which are reviewed by the University.

Cash equivalents, consisting primarily of fixed income securities and money market accounts with original maturities of three months or less, related to endowment funds, are classified as investments. Investment transactions are recorded on the trade date. Realized gains and losses on the sale of investments are calculated on the basis of specific identification of the securities sold. Investment management fees and service charges are netted against investment income for financial reporting purposes.

Investments from the sale of IITRI net assets consist of cash equivalents and Alion notes receivable with detachable stock warrants received, which are reported at fair value. The fair value of the notes receivable are determined based on the discounted value of the interim interest payments and the face amount of each note over their respective lives, plus the discounted projected value of the attached warrants, based on their respective required rates of return as estimated by management.

#### (f) Notes Receivable

Student notes receivable consist primarily of Perkins loans, the Illinois Student Assistance Commission Federal Family Educational Loan program, and University loans. Perkins loans are comprised of 89% U.S. Government funds and 11% University funds. The University establishes valuation allowances for notes receivable based on estimates of future collectibility. The University wrote off student receivables of \$7,500 during fiscal year 2008 which consequently reduced the allowance to \$205 as of May 31, 2008.

# (g) Inventory

Inventories are stated at cost, which is determined by the first in, first out method for both the University and IITRI.

# (h) Physical Properties

The University's and IITRI's fixed assets are recorded at cost of construction or acquisition. The University and IITRI depreciate their land improvements, buildings, and equipment on the straight-line method over their estimated useful lives which range from three to 50 years.

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

Upon sale or retirement of an asset, cost and the related accumulated depreciation are deducted from the accounts, and a gain or loss is recorded. Minor expenditures for renovations, construction, and replacement of equipment are charged to current operations and are not capitalized.

# (i) Impairment of Long-lived Assets

The University and IITRI account for long-lived assets in accordance with the provisions of Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-lived Assets. This Statement requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets.

# (j) Beneficial Interest in Perpetual Trusts

The University has a beneficial interest in certain perpetual trusts which are held by third parties. The University recognizes contribution revenue equal to its proportionate share of the fair value of the trust assets upon notification and determination that its right to receive benefits under the agreement is unconditional. Changes in the fair value of the University's interest in the trust assets are reflected as gains or losses in the period they occur.

# (k) Split-interest Agreements

The University's split-interest agreements with donors consist of irrevocable charitable remainder trusts, annuity trusts, and charitable gift annuities for which the University is either the remainder beneficiary or both the trustee and the remainder beneficiary.

Assets held in trust for which the University serves as trustee are included in investments. In addition, the present value of the estimated future payments to be made to the donors and/or other beneficiaries is included as liabilities. The liabilities are adjusted during the term of the agreements for changes in the value of the assets, accretion of the discount, and other changes in the estimates of future benefits.

Assets held in trust for which the University does not serve as trustee are not reported as investments in the consolidated financial statements. However, contribution revenue and a receivable are recognized at the date the trusts are established at the fair value of the trust assets, which represents the estimated present value of the expected future cash flows to be received.

11

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

# (l) Income Taxes

The University and IITRI have each received a determination letter from the Internal Revenue Service indicating that they are tax-exempt organizations as provided in Section 501(c)(3) of the Internal Revenue Code of 1986 and, except for taxes related to unrelated business income, are exempt from Federal and state income taxes.

Management has included a provision for income taxes on unrelated business income related the University's interest in certain partnership investments. The unrelated business income liability of \$253,000 is reported in accounts payable and accrued expenses.

#### (m) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

# (n) New Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement on Financial Accounting Standard No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* (SFAS 158). SFAS 158 requires an employer to recognize the over funded or under funded status of a defined benefit pension and other postretirement plans as an asset or liability in its statement of financial position at year-end, and to recognize changes in the funded status directly to unrestricted net assets in the year in which the changes occur. As discussed in footnote 8, the University adopted SFAS 158 effective for the fiscal year ended May 31, 2008.

During the year ending May 31, 2008, the University adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 clarifies the application of Statement on Financial Accounting Standard No. 109, *Accounting for Income Taxes* by defining a criterion that an individual tax position must meet for any part of the benefit of that position to be recognized in an organization's financial statements. There was no impact to the University's consolidated financial statements as a result of implementing FIN 48.

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

#### (3) Investments

Investments consist of the following at May 31:

	_	200	08	200	)7
		Cost	Fair Value	Cost	Fair Value
Cash equivalents	\$	9,441	9,459	22,522	22,606
Real estate		13,803	14,412	13,803	14,417
Stocks		123	138	215	240
Equity mutual funds		170,963	167,376	133,459	146,550
Bonds		14,025	13,983	14,563	14,521
Fixed income mutual funds		25,531	24,944	25,911	25,666
Hedge funds		841	2,051	8,427	19,574
Private equity funds		6,194	8,100	18,992	27,315
Alion notes and warrants		32,202	52,995	32,202	74,337
Total investments	\$	273,123	293,458	270,094	345,226

For investment purposes, the University pools substantially all assets of its endowment accounts. Each account owns "units" of the consolidated investment pool. The pooled assets are valued on a monthly basis and a fair value per unit is determined which is used to calculate the number of units purchased by accounts entering the pool and redeemed by accounts withdrawing from the pool. Income (interest, dividends, and rents) earned by the investment pool is distributed to the individual accounts on the basis of average units owned by each account in the pool during the year.

The University changed its investment managers during March 2007 and, as a result, liquidated substantially all of the marketable securities in its investment portfolio. The University recorded a realized gain of approximately \$22,000 relative to the sale of its marketable investment portfolio.

The University utilizes the total return concept of endowment spending. Under the method adopted by the University, interest, dividends, and rents, as well as appreciation on investments held by the investment pool, are made available for spending. Endowment payouts for operations of \$16,935 for fiscal year 2008 and \$14,723 for fiscal year 2007 were set by the University's board of trustees.

13

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

Return on investments consists of the following for the years ended May 31:

	 2008	2007
Return on investments:		
Interest and dividends	\$ 7,108	8,255
Net realized gain on sale of investments	28,177	32,235
Net unrealized gain (loss) on investments	 (54,797)	14,545
Net return on investments	\$ (19,512)	55,035

The return on investments reflects interest income of \$815 for 2008 and \$799 for 2007 and an unrealized loss of \$42 for 2007 from investments held by IITRI.

# (4) Pledges Receivable

Pledges receivable consist of unconditional promises to give and are summarized as follows at May 31:

	 2008	2007
Pledges receivable	\$ 16,064	21,263
Allowance for uncollectible pledges	(254)	(283)
Discount to present value future cash flows	 (2,795)	(3,054)
Net pledges receivable	\$ 13,015	17,926

The following is a summary showing the expected timing of collection of total unconditional pledges receivable outstanding as of May 31, 2008:

Fiscal year(s)	 Amount
2009	\$ 4,148
2010 through 2014	10,336
2015 and thereafter	 1,580
	\$ 16,064

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

# (5) Physical Properties

The University's consolidated physical properties consisted of the following as of May 31:

	 2008	2007
Land and land improvements Building and building improvements Equipment and library collection Construction in progress	\$ 31,939 296,791 88,972 33,534	27,610 253,164 80,995 55,456
Total physical properties	451,236	417,225
Less accumulated depreciation	 182,846	170,306
Physical properties, net	\$ 268,390	246,919

The University executed an agreement to purchase two parcels of land for \$7,800 in December 2006. Phase I (\$3,500) of the purchase of a surface parking lot at the corner of Jefferson and Jackson Streets, Chicago, Illinois, which is in close proximity to the University's downtown campus occurred. The purchase agreement included a put-option, which allows the University the option to reconvey the first land parcel back to the seller by October 15, 2007 with a refund of the initial purchase payment of \$3,500. The option was not exercised and Phase II (\$4,300) was executed in 2008 to complete the purchase of the parcels of land.

# (6) Beneficial Interest in Perpetual Trusts

The University is an income beneficiary of certain irrevocable trusts that are held and controlled by independent trustees. The University has no equity interest in the principal of these trusts. At May 31, 2008 and 2007, the share of these trusts from which the University derives income had a combined fair value of \$21,836 and \$22,333, respectively. These trusts provided unrestricted income of \$471 and \$465 in fiscal 2008 and 2007, respectively.

15

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

# (7) Notes and Bonds Payable

Notes and bonds payable consist of the following at May 31:

	Interest rate	 2008	2007
University:			
IFA Bonds, Series 2006, payable in varying installments through 2036 Note payable to ISAC for student	5.0% and 6.10%	\$ 160,000	160,000
lender program City of Chicago Energy Loan	Various Interest free	261 300	230 450
IITRI ( IFA Series 2004, payable in varying installments through 2034	Variable	16,830	17,540
Short-term line of credit	Various	10,500	
Total notes and bonds payable		\$ 187,891	178,220

The following is a summary of required principal payments, excluding amounts due under the note payable to ISAC, on outstanding secured obligations as of May 31, 2008:

Fiscal year ending:	
2009	\$ 11,425
2010	810
2011	845
2012	885
2013	925
2014 and beyond	 172,740
Total notes and bonds payable	\$ 187,630

In March 2006, the University issued \$160,000 in fixed rate revenue bonds through the Illinois Finance Authority consisting of \$153,600 (IFA Series 2006A) and \$6,340 (IFA Series 2006B). Proceeds from the bonds were used to advance refund the IEFA Series 1999 Bonds, refund the outstanding IEFA Series 2000 Bonds, refund the outstanding IEFA Series 2004 Bonds and finance a portion of the costs of the construction, renovation, and equipping of certain of the educational facilities of the University and pay for certain expenses incurred in conjunction with the issuance of the Series 2006A and 2006B Bonds. The fixed rate on the Series 2006A Bonds is 5% with serial bonds maturing from April 2016 through 2026 and term bonds due April 1, 2031 and April 1, 2036. The Series 2006B term bond bears a 6.10% rate maturing April 1, 2015.

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

The University has also been designated a lender by the U.S. Department of Education for the Federal Stafford Loan program. As a lender the University participates in the Federal Family Education Loan Program and offers loans to University graduate students. In order to provide funding to support the lender program, the University has contracted with the Illinois Student Assistance Commission (ISAC). The arrangement with ISAC provides that once the University approves a loan to a student, ISAC will loan the funds to the University to forward to the student. After the student separates from the University, ISAC, or one of its designated agencies, will purchase the loan from the University, at which time the University will liquidate its debt to ISAC, and ISAC will then service the loan through the repayment process.

In August 2004, IITRI sold an \$18,820 bond issue of adjustable rate demand debt under the tax-exempt authority of the Illinois Finance Authority (IFA). The proceeds from the sale were used to (i) renovate and construct lab and office space; (ii) establish a debt service reserve fund; (iii) and pay certain costs incurred in connection with the bond issue. Additionally, IITRI has obtained an irrevocable letter of credit issued by Fifth Third Bank through August 4, 2010, which is renewable annually upon mutual consent of the parties. In the event that the agent is unable to remarket the bonds, the bonds become a demand note under the irrevocable letter of credit issued by Fifth Third Bank. If the letter of credit is not renewed and an alternate credit facility is not in place, IITRI's bonds are subject to mandatory redemption. Although the loan agreement between IITRI and IFA is for a thirty year period, the terms of the letter of credit between IITRI and Fifth Third Bank require the bonds to be amortized over a twenty year life carrying interest rate of 1.00%; accordingly, the current amortization schedule results in final payment in year 2023, which does not violate the terms of IITRI's loan agreement.

The University maintains two line of credit agreements that allow borrowings up to \$8,000 and \$25,000. Borrowings under both lines will bear interest at the prime commercial rate or adjusted LIBOR with interest being payable quarterly. The borrowings under the lines of credit will be payable on demand, but if no demand is made, borrowings shall automatically mature on the interest payable date next following the date the loan is made. Amounts outstanding under these agreements were \$7,500 and \$3,000, respectively, as of May 31, 2008. No amounts were outstanding as of May 31, 2007.

IITRI maintains a line of credit agreement that allows borrowings of up to \$350. Borrowings under this line will bear interest at the prime commercial rate with interest payable monthly. IITRI may make principal payments at any time and in any amount, or on demand of the lender. The line of credit does not have a termination date. No amounts were outstanding under this agreement as of May 31, 2008 and 2007.

The University and IITRI are subject to certain debt covenants. As of May 31, 2008, those covenants have been met.

The carrying value of long-term debt does not differ materially from its estimated fair value as of May 31, 2008 and 2007, based on quoted market prices for the same or similar issues.

Notes to Consolidated Financial Statements
May 31, 2008 and 2007
(In thousands of dollars)

#### (8) Accrued Postretirement Benefit Obligation

The University created a retirement incentive program for tenured faculty in November 2006. As part of the incentive program, certain medical benefits are offered to participants. A reconciliation of the plan's funded status with the accrued benefit cost reported on the statement of financial position at May 31, 2008 and May 31, 2007 is presented below. The accumulated postretirement benefit obligation disclosed below is the actuarial value of future benefits used on employees' service rendered through the measurement date.

		2008	2007
Change in accumulated postretirement benefit obligation	_		
at beginning of the period	\$	11,059	10,945
Service cost		99	285
Interest cost		186	372
Plan amendments		(9,817)	
Actuarial gain		(47)	(492)
Actuarial benefit payments net contributions	_	(18)	(50)
Accumulated postretirement benefit obligation		1,462	11,060
at end of the period			
Change in fair value of plan assets			
Fair value of plan assets at beginning of period			
Employer contribution		18	50
Participant contributions		30	
Total benefit payments		(48)	(50)
Fair value of plan assets at end of the period	_	<del>(10)</del>	
Tail value of plan assets at old of the period			
Funded status	\$	(1,462) \$	(11,060)
Unrecognized net actuarial loss			492
Unrecognized prior service cost			(10,135)
Not a second as a second and a second as of Consocial as a second		¢	1 417
Net amount recognized in the statement of financial position		\$	1,417
Amounts recognized in the statement of financial position			
consist of:			
Liability	\$	(1,462)	(1,417)
Liaomity	ψ	(1,402)	(1,41/)

The incremental effect for the adoption of SFAS 158 was a decrease in accrued postretirement benefit obligation of \$462 with a corresponding increase in net assets. The accumulated charge to unrestricted net assets consists of amounts that have not yet been recognized in net periodic benefit cost as follows: unrecognized actuarial loss of \$539 and unrecognized prior service costs of \$77. These amounts will be subsequently recognized in future years as components of net periodic pension cost.

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

The components of net periodic postretirement benefit cost for the years ended May 31 are as follows:

	2008		2007
Service cost	\$ 99	\$	285
Interest cost	186		371
Amortization of prior service cost	 240	. <u>.</u>	811
Net periodic postretirement benefit cost	\$ 525	\$_	1,467

# **Actuarial Assumptions**

The weighted average assumptions used in the accounting for the postretirement plan for the year ended May 31, 2008 are shown below:

	2008	2007
Discount rate (expense)	6.00%	5.75%
Discount rate (obligation)	6.25	8.0
Health care cost trend rates:		
Next two fiscal years	11.0-12.0	11.0-12.0
Next seven fiscal years	5.0-10.0	5.0-10.0
Thereafter	5.00	5.00

Assumed health care cost trend rates have a significant effect on the amounts reported for health care plans. A one-percentage point change in assumed health care cost trend rates would have the following effects for the fiscal year ended May 31, 2008:

Effect on total service cost and interest cost:		
One percentage point increase	\$ 321	155
One-percentage point decrease	(253)	(120)
Effect on year-end postretirement benefit obligation:		
One-percentage point increase	184	2,109
One percentage point decrease	(158)	(1,689)

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

#### Estimated Future Benefits Payments

The following benefit payments, which reflect expected future service, are expected to be paid for each of the fiscal years ending May 31:

Fiscal year	
2009	\$ 29
2010	41
2011	53
2012	66
2013	85
2014-2018	586

#### Plan Amendment

Effective August 1, 2007, the plan was amended to eliminate post-65 benefits for all retirees, both current and future. There was also a group of faculty participants who were offered a special option under which the University would reimburse their premiums for post-65 retiree coverage. This special benefit option was only available through May 31, 2008. Participants had to sign up by this date in order to participate.

# (9) Employee Benefit Plans

#### Pension Plan

Substantially all full time employees of the University and IITRI are participants in defined contribution retirement plans that are funded by contributions from the University, IITRI, and participating employees. Total contributions made under the plans for the years ended May 31, 2008 and 2007 were \$4,960 and \$4,818 by the University and \$402 and \$404 by IITRI, respectively.

#### Health Care Benefit Plans

The University maintains a health care benefits plan (the Plan) that provides for certain major medical, surgical, and other benefits for all eligible employees and dependents. The Plan is partially self-funded by the University, subject to stop loss arrangements. Under this Plan, the University makes contributions to cover benefits not funded by employees, limited by stop loss amounts.

IITRI offers a health care benefits plan (the Plan) that provides for certain medical and dental expense coverage including certain vision discounts for all eligible employees and dependents. The Plan is fully insured and underwritten by the Aetna Life Insurance Company. Under this Plan, premium contributions are shared by both IITRI and plan participants.

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

# (10) Functional Classification of Expenses

Expenses are reported in the statements of activities by natural business category. The University's primary program services are instruction and research. Expenses reported as academic support, student services, institutional support, and auxiliary enterprises are incurred in support of these primary program services.

Consolidated expenses by functional classification are as follows for the years ended May 31:

	 2008	2007
Instruction	\$ 80,311	72,428
Research and other grant activities	67,615	57,668
Academic support	27,562	26,758
Student services	16,056	15,044
Institutional support	40,367	36,139
Auxiliary enterprises	 13,136	12,025
Total	\$ 245,047	220,062

# (11) Net Assets

Certain unrestricted net assets are designated for specific purposes by the board of trustees of the University and are summarized as follows at May 31:

2008	2007
\$ 74,957	76,046
73,533	20,201
 35,742	150,275
\$ 184,232	246,522
\$ \$ 	\$ 74,957 73,533 35,742

Included in the net investment in land, buildings, and equipment amount above are \$5,423 and \$5,731 of IITRI net assets at May 31, 2008 and 2007, respectively.

21

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

Donor restrictions on temporarily restricted net assets consist of the following at May 31:

	 2008	2007
Net investment in land, buildings, and equipment	\$ 5,885	6,743
Scholarships	2,351	1,851
Instruction and academic departments	5,901	6,328
Library	427	518
General operations	8,137	9,492
Split-interest annuity agreements	 1,065	1,073
Total	\$ 23,766	26,005

Permanently restricted net assets consist of the following at May 31:

	 2008	2007
Endowment investments	\$ 125,092	117,763
Endowments restricted for plant	9,898	9,898
Donor-restricted revolving loans funds	7,000	6,665
Split-interest annuity agreements	2,258	2,029
Beneficial interest in perpetual trusts	 21,836	22,333
Total	\$ 166,084	158,688

The amount of outstanding loans from quasi-endowments to unrestricted funds is \$5,798 and \$6,900 at May 31, 2008 and 2007, respectively.

# (12) Leases

In December 1999, the University leased its undeveloped property located at 32nd Street between Michigan Avenue and Indiana Avenue, to Michigan Place LLC for a term of 100 years. The agreement requires Michigan Place LLC to pay the University \$815 in total lease payments. The University has received these payments.

In May 2002, the University entered into a 40 year ground lease agreement with IIT State Street, NFP, to lease property on the University's campus for the purpose of building housing to lease to students, faculty, and staff of the University or employees of other not-for-profit educational institutions in the area. Under this agreement, the University will receive annual lease payments of \$5 over the term of the lease.

Notes to Consolidated Financial Statements

May 31, 2008 and 2007

(In thousands of dollars)

IIT State Street, NFP is a 501(c)(3) corporation that is affiliated with, but not controlled by the University, and accordingly, is not included in the University's financial statements. IIT State Street, NFP, has borrowed \$28,800 from IEFA to construct the dorms and \$1,000 from the University for a supplemental reserve fund. The University has no obligation for the corporation's liabilities or debts. However, the University has provided \$1,000 loan to State Street to establish the supplemental reserve fund, which was subsequently used to fund construction costs of the housing complex.

In August 2003, the University entered into a five year operating lease with IIT State Street, NFP. If there are vacancies in the IIT State Street housing complex, the lease obligates the University to lease unoccupied beds from IIT State Street to the extent necessary to permit IIT State Street to pay its annual debt service.

In January 2006, the University entered into a fifty-five year ground lease agreement with Townsend Chicago, LLC. The ground lease agreement requires Townsend Chicago, LLC to pay the University an initial rent payment of \$1.9 million for the first 10 years and \$11 million through 2031. Townsend purchased from IIT the building known as the Technology Business Center for \$2,600 resulting in a gain of approximately \$2,400, which is being amortized over the life of the building lease. IIT is leasing approximately 21% of the building back from Townsend for an initial term of eighteen years. The University is required to pay \$769, \$788, \$808, \$828, \$849 respectively over each of the next five years and \$10,949 in years thereafter.

# (13) Contingencies

The University is a defendant in legal proceedings arising in the ordinary course of its business. Although the outcome of these proceedings cannot presently be determined, in the opinion of management, disposition of these proceedings will not have a material adverse effect on the financial position of the University.

# Schedule of Expenditures of Federal Awards

Year ended May 31, 2008

Major Programs:   Research and Development Cluster - Direct awards:   Department of Agriculture:   Department of Agriculture:   Department of Agriculture:   Department of Agriculture:   Department of Defense:   Department of Defense Research   12,300   22,018   Department of Defense Research   12,300   22,018   Department of Defense Research   Defense Researc	Program title	Award number	CFDA number	Federal expenditures

Notes to Schedule of Expenditures of Federal Awards Year ended May 31, 2008

# (1) Summary of Significant Accounting Policies

# (a) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) summarizes the federal awards received by the Illinois Institute of Technology (the University) under programs of the federal government for the fiscal year ended May 31, 2008. The Schedule excludes expenditures of federal awards of IIT Research Institute, a subsidiary of the University. Expenditures of federal awards for IIT Research Institute will be separately audited in accordance with Office of Management and Budget (OMB) Circular A-133, Audits of Institutions of States, Local Governments, and Non-Profit Organizations.

For purposes of the Schedule, federal awards include all grants, contracts, and similar agreements entered into directly between the University and agencies and departments of the federal government and all subawards to the University by nonfederal organizations pursuant to federal grants, contracts, and similar agreements. The awards are classified into major program and nonmajor program categories in accordance with the provisions of OMB Circular A-133. Such categories are as follows:

# **Major Programs**

Research and Development Cluster – Includes awards for research and development activities at the University sponsored by various agencies of the federal government.

Student Financial Assistance Cluster – Includes certain awards to provide financial assistance to students, primarily under the Federal Work Study (FWS), Federal Pell Grant (Pell), and Federal Supplemental Educational Opportunity Grant (FSEOG) programs of the U.S. Department of Education. Also, the University receives awards to make loans to eligible students under the Federal Perkins Loan Program, and federally guaranteed loans are issued to students by the University under the Federal Family Education Loan Program (FFEL).

# **Nonmajor Programs**

Other Federal Awards – Includes awards for program activities at the University sponsored by various agencies of the federal government.

Total expenditures per the Schedule do not directly agree to the revenue line items on the University's May 31, 2008 consolidated statement of activities. The federal expenditures are classified in the accompanying consolidated statement of activities as government grants and contracts revenue, totaling approximately \$44,323,000. The remaining government grants and contracts consist of approximately \$11,353,936 of awards received from states and other sources, with the balance of approximately \$11,173,000 related to IIT Research Institute, a consolidated separate legal entity.

# (b) Expenditure and Revenue Recognition

Expenditures are recognized as incurred and related revenue is recognized up to award amounts for financial statement and program reporting. Award reporting periods do not necessarily coincide with the fiscal reporting period of the University. The existence of certain credit balances on the Schedule

Notes to Schedule of Expenditures of Federal Awards Year ended May 31, 2008

is primarily due to the reclassification of expenditures incurred and related revenue recorded in the University's prior fiscal reporting period.

### (c) Subrecipients

Certain funds are passed through to subrecipient organizations by the University. Expenditures reimbursed by the University are presented in the Schedule. See note 4 for a summary of payments made to subrecipients during the year ended May 31, 2008.

# (d) Pass-Through Funds

The University is the subrecipient of federal funds from nonfederal organizations, which are reported on the Schedule as pass-through funds.

#### (2) Indirect Costs

The University has four-year predetermined fixed indirect cost rates, effective June 1, 2003 through May 31, 2007, which have been negotiated with its cognizant agency, the U.S. Department of Health and Human Services. The predetermined fixed rates were based on the University's financial information for fiscal year 2003. The base rates for on – and off – campus research were 50% and 24% of modified total direct costs, respectively. Approximately \$3,700,000 of indirect costs were reimbursed to the University for the year ended May 31, 2008.

# (3) Federal Student Loan Programs

Loans made by the University to eligible students under federal student loan programs and federally guaranteed loans issued to students of the University by financial institutions during the fiscal year ended May 31, 2008, are summarized as follows:

Direct loan programs – Perkins	\$	1,590,064
Guaranteed loan programs – Stafford		
and other		44,977,673
Total federal student loan	Φ.	16.565.505
programs	\$_	46,567,737

The Perkins program is administered directly by the University and balances and transactions relating to this program are included in the University's consolidated financial statements. The balance of loans outstanding under the Perkins program was \$7,576,224 at May 31, 2008. The University received an administrative cost allowance of \$154,084 under the Perkins program during the fiscal year ended May 31, 2008.

The University is responsible only for the performance of certain administrative duties with respect to the FFEL and, accordingly, these loans are not included in its financial statements, and it is not practical to determine the balance of loans outstanding to students and former students of the University under these programs at May 31, 2008.

Notes to Schedule of Expenditures of Federal Awards Year ended May 31, 2008

# (4) Summary of Subrecipient Payments

Expenditures made to subrecipients under federal awards for the year ended May 31, 2008, were as follows:

Research and Development Cluster:	
Department of Defense	\$ 18,333
Department of Justice	94,048
National Science Foundation	300,983
<b>Environmental Protection Agency</b>	8,982
Department of Transportation	13,424
Department of Health and Human	
Services	 549,372
Total	\$ 985,142

#### KPMG LLP 303 East Wacker Drive Chicago, IL 60601-5212

# Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Trustees Illinois Institute of Technology:

We have audited the consolidated financial statements of Illinois Institute of Technology as of and for the year ended May 31, 2008, and have issued our report thereon dated October 2, 2008. Our report was modified to include an emphasis paragraph stating that the University adopted the provisions of Statement of Financial Accounting Standards No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, effective May 31, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

# **Internal Control over Financial Reporting**

In planning and performing our audit, we considered the University's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

# **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to University management in a separate letter dated October 2, 2008.

This report is intended solely for the information and use of the Board of Trustees and management of the University, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

KPMG LLP

# Independent Auditors' Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133

The Board of Trustees Illinois Institute of Technology:

# **Compliance**

We have audited the compliance of Illinois Institute of Technology (the University) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* (Compliance Supplement) that are applicable to each of its major federal programs for the year ended May 31, 2008, except those requirements discussed in the third and fourth paragraphs of this report. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the University's management. Our responsibility is to express an opinion on the University's compliance based on our audit.

The University's consolidated financial statements include the operations of IIT Research Institute, which received \$11,173,000 in federal awards that are not included in the University's schedule of expenditures of federal awards for the year ended May 31, 2008. Our audit, described below, did not include the operations of IIT Research Institute because their federal awards are audited separately.

We did not audit the University's compliance with the requirements governing the billing, collection, and due diligence functions in accordance with the requirements of the Student Financial Assistance Cluster: Federal Perkins Loan Program as described in the Compliance Supplement. Those requirements govern functions performed by Affiliated Computer Services, Inc. Education Services (ACS). Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements. ACS' compliance with the requirements governing the functions that it performs for the University for the year ended June 30, 2008 was examined by other accountants in accordance with the U.S. Department of Education's Audit Guide, Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers. Our report does not include the results of the other accountants' examination of ACS' compliance with such requirements.

We did not audit the University's compliance with the requirements governing Reporting and Special Tests and Provisions 1 through 14 in accordance with the requirements of the Federal Family Education Loan Program as described in Section 84.032L of the Compliance Supplement (school as lender). Those requirements govern functions performed by Illinois Designated Account Purchase Program (IDAPP). Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements. IDAPP's compliance with the requirements governing the functions that it performs for the University was examined by other accountants in accordance with the

U.S. Department of Education's Audit Guide, *Compliance Audits (Attestation Engagements) for Lenders and Lender Servicers Participating in the Federal Family Education Loan Program*, for the year ended June 30, 2008. Our report does not include the results of the other accountants' examination of IDAPP's compliance with such requirements.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements described within the Compliance Supplement that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the University's compliance with those requirements.

In our opinion, the University complied, in all material respects, with the requirements referred to in the first paragraph above that are applicable to each of its major federal programs for the year ended May 31, 2008. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as findings 08-01 to 08-06.

# **Internal Control over Compliance**

The management of the University is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

Requirements governing billing, collection, and due diligence functions in the Student Financial Assistance Cluster: Federal Perkins Loan Program as described in the Compliance Supplement are performed by ACS. Internal control over compliance relating to such functions for the year ended June 30, 2008 was reported on by other accountants in accordance with the U.S. Department of Education's Audit Guide, *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. Our report does not include the results of the other accountants' testing of ACS' internal control over compliance related to such functions.

Requirements governing Reporting and Special Tests and Provisions 1 through 14 in the Federal Family Education Loan Program as described in Section 84.032L of the Compliance Supplement (school as lender) are performed by IDAPP. Internal control over compliance related to such functions was reported on by other accountants in accordance with the U.S. Department of Education's Audit Guide, *Compliance Audits (Attestation Engagements) for Lenders and Lender Servicers Participating in the Federal Family Education Loan Program*, for the year ended June 30, 2008. Therefore, the scope of our work did not extend to internal control maintained at IDAPP. Our report does not include the results of the other accountants' examination of IDAPP's internal control over compliance related to such functions.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the University's internal control that might be significant deficiencies or material weaknesses as defined below. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as findings 08-01 to 08-06 to be significant deficiencies.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. We did not consider the deficiencies described in the accompanying schedule of findings and questioned cost to be material weaknesses.

The University's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the University's responses, and accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Board of Trustees and management of the University, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone than these specified parties.

KPMG LLP

Chicago, Illinois March 30, 2009

# Schedule of Findings and Questioned Costs Year ended May 31, 2008

# (1) Summary of Auditors' Results:

- (a) The type of opinion issued on the consolidated financial statements: **Unqualified opinion**
- (b) Significant deficiencies in internal control disclosed by the audit of the consolidated financial statements: **None reported**

Material weaknesses: No

- (c) Noncompliance which is material to the consolidated financial statements: No
- (d) Significant deficiencies in internal control over major programs: Yes

Material weaknesses: No

- (e) The type of report issued on compliance for major programs: **Unqualified opinion**
- (f) Any audit findings which are required to be reported under Section .510(a) of OMB Circular A-133: **Yes**
- (g) Major programs:

Student Financial Assistance Cluster (including the Federal Family Education Loan Lender Program) – various CFDA numbers

**Research & Development Cluster – various CFDA numbers** 

- (h) Dollar threshold used to distinguish between Type A and Type B programs: \$685,608
- (i) Auditee qualified as a low-risk auditee under Section .530 of OMB Circular A-133: Yes
- (2) Findings relating to the financial statements reported in accordance with *Government Auditing Standards*: None

Schedule of Findings and Questioned Costs
Year ended May 31, 2008

# Findings and questioned costs relating to federal awards:

**Federal Agency**: U.S. Department of Education (USDE)

**Program Name**: Student Financial Assistance Cluster – Federal Family Education Loan Program (FFEL)

**CFDA # and Program Expenditures**: 84.032 (\$44,977,673)

Award Numbers: None

**Questioned Costs:** None

Finding 08-01 Special Tests and Provisions – Student Status Changes

#### Requirement

In accordance with 34 CFR Section 682.10, the University is required to notify National Student Loan Data System (NSLDS) of changes in a student's status within 30 days of discovering the change, unless the University expects to complete its next Roster File within 60 days.

Additionally, OMB Circular A-110, Uniform Administrative Requirements for Grants and Other Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include establishing a reporting schedule to ensure student status change submissions comply with federally prescribed timeframes.

#### **Condition Found**

During our testwork over 50 FFEL borrowers that graduated, withdrew, or dropped out during the fiscal year, we noted that one (1) student status change was not submitted to the NSLDS within the required timeframe. The delay in reporting this instance was 65 days.

## **Effect**

Failure to accurately report student status changes to NSLDS in a timely manner may result in FFEL borrowers not entering repayment status at the appropriate time.

#### Recommendation

We recommend the University revise its schedule for reporting student status changes to ensure status changes are submitted within the required timeframes.

Schedule of Findings and Questioned Costs
Year ended May 31, 2008

# Views of Responsible Officials

We concur with the recommendation to revise the schedule for reporting student status changes. The Registrar's Office has doubled the frequency of reporting data to the National Student Clearinghouse (NSC) and the National Student Loan Data System (NSLDS). Specifically, enrollment and graduation reports are transmitted on the last business day of every month. Additionally, metrics are gathered using delivered audit reports from Banner, to verify and correct enrollment data before it is sent to the Clearinghouse.

Schedule of Findings and Questioned Costs
Year ended May 31, 2008

Federal Agency: U.S. Department of Education (USDE)

Program Name: Student Financial Assistance Cluster – Federal Family Education Loan Program (FFEL)

**CFDA # and Program Expenditures**: 84.032 (\$44,977,673)

Award Numbers: None

**Questioned Costs:** None

Finding 08-02 Special Tests and Provisions – Student Disbursements

#### Requirement

In accordance with 34 CFR Section 668.167, the University is required to disburse student loan funds within three business days following the date the institution receives the funds from the lender.

Additionally, OMB Circular A-110 requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include supervisory review procedures designed to ensure that lender funds are disbursed within federally prescribed timeframes.

## **Condition Found**

During our testwork over 60 student award disbursements during the fiscal year, we noted that the disbursement of FFEL loan proceeds of \$1,940 made to one student occurred eleven business days after the University received the loan proceeds from the lender which was eight days past the timeframe required by federal regulations.

Upon further investigation of the entire population of FFEL disbursements, the University determined that additional FFEL loan proceeds totaling \$182,083 were not disbursed to student accounts within three business days of receipt from the lender during fiscal year 2008.

#### **Effect**

Failure to disburse federal funds in a timely manner results in the University being required to remit the interest earned on the federal funds to the federal awarding agency and the potential to be ineligible to participate in the Title IV program.

#### Recommendation

We recommend the University review its student disbursement process to ensure that student loan funds are disbursed in a timely manner.

Schedule of Findings and Questioned Costs
Year ended May 31, 2008

# Views of Responsible Officials

We concur with the recommendation to review the student disbursement process to ensure that student loan funds are disbursed in a timely manner. Reorganization of the Financial Aid Office places the responsibility of ensuring that loans are applied to student accounts within 3 days of disbursement on the Loan and Grants Administrator of the Financial Aid Office. He or she reviews disbursed loans daily and returns/reissues any funds that have not been applied to student accounts. The Loan and Grants Administrator of the Financial Aid Office reports any issues to the Assistant Director of Financial Aid. The office is in the process of automating this process.

Schedule of Findings and Questioned Costs
Year ended May 31, 2008

Federal Agency: U.S. Department of Education (USDE)

Program Name: Student Financial Assistance Cluster – Federal Pell Grant Program (Pell)

**CFDA # and Program Expenditures**: 84.063 (\$1,632,436)

Award Numbers: P063P071349

**Questioned Costs:** None

Finding 08-03 Reporting – Pell Payment Data

#### Requirement

In accordance with 34 CFR Section 690.83, the University is required to submit to the U.S. Department of Education (USDE), using the Common Origination and Disbursements (COD) System, all students receiving Pell awards and their respective payment information.

Additionally, OMB Circular A-110 requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include establishing a supervisor review to ensure the information submitted to the COD system is accurate and is updated within the required timeframes as federally prescribed.

#### **Condition Found**

During our testwork over 59 Pell transactions submitted through the USDE's COD system during the fiscal year, we noted the following:

- The disbursement date reported for 21 disbursements reported in USDE's COD System were incorrect. Errors in disbursement dates reported ranged from 5 to 96 days prior/subsequent to the actual disbursement date.
- The disbursement amounts reported for three disbursements reported in USDE's COD System were incorrect. Errors in amounts reported ranged from \$539 to \$2,155.
- The disbursement amount reported for one disbursement, included in the previous bullet, was never reported in the USDE's COD System. An error in the amount of \$2,155 was incorrectly reported as one disbursement, rather than two separate disbursements, in the USDE COD System.
- Eighteen disbursements were not reported in USDE's COD System within the required 30 day timeframe. Delays in reporting these disbursements ranged from 15 to 171 days after the required timeframes.

## **Effect**

Failure to report accurate Pell payment data in a timely manner may result in the institution becoming ineligible to participate in the Title IV program.

Schedule of Findings and Questioned Costs
Year ended May 31, 2008

#### Recommendation

We recommend the University review and update its process to ensure that the information reported in the COD System is reported in a timely manner and is accurate.

# Views of Responsible Officials

We concur with the recommendation to review and update the process to ensure that information is reported to COD in a timely and accurate manner. With the implementation of Banner, information sent to COD will be created in Banner. Since reporting, awarding, and disbursing of Pell is integrated in one system there will be no errors in the disbursement date, amount, or number. In the previous year, intermediate software requiring manual data entry was necessary.

Schedule of Findings and Questioned Costs
Year ended May 31, 2008

Federal Agency: U.S. Department of Education (USDE)

**Program Name:** Student Financial Assistance Cluster:

Federal Supplemental Educational Opportunity Grants

Federal Family Education Loan Program

Federal Work Study Program Federal Pell Grant Program

Academic Competitiveness Grant Program

84.032 (\$44,977,673) 84.033 (\$1,001,277) 84.038 (\$1,590,064) 84.063 (\$1,632,436) 84.375 (\$81,579) 84.376 (\$168,000)

Award Numbers: None

**Questioned Costs:** None

## Finding 08-04 Special Tests and Provisions – Institutional Eligibility

## Requirement

In accordance with 34 CFR Section 600.21, the University is required to report to the U.S. Secretary of Education no later than 10 days after the change of a person who has the ability to substantially affect the actions of an institution, if that person did not previously have this ability.

Additionally, OMB Circular A-110 requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include establishing and implementing a specific policy and procedure regarding the updating of information in the Eligibility and Certification Approval Report (ECAR) to ensure compliance with federal laws and regulations.

## **Condition Found**

During our audit, we noted the University had not reported the change in the University's president to the USDE within the timeframes required by federal regulations. Specifically, we noted the new President assumed his position on July 30, 2007; however, the change was not reported to USDE until September 24, 2007, with the submission of the Fiscal Operations Report and Application to Participate (FISAP).

# **Effect**

Failure to report changes in key personnel within the institution in a timely manner may result in the institution becoming ineligible to participate in the Title IV program.

Schedule of Findings and Questioned Costs
Year ended May 31, 2008

#### Recommendation

We recommend the University review its process for the reporting changes in personnel to the USDE and make any revisions necessary to ensure changes in key personnel are reported within required timeframes.

# Views of Responsible Officials

We concur with the recommendation for the University to review the process for reporting changes in personnel to the USDE. The Associate Vice President of Undergraduate Enrollment and Financial Aid and the Assistant Vice President of Business and Finance of Downtown campus will inform their Financial Aid staffs when a change occurs in key personnel so that their personnel can update the Eligibility and Certification Approval Report (ECAR) system provided by the USDE for these purposes.

Schedule of Findings and Questioned Costs
Year ended May 31, 2008

Federal Agency: U.S. Department of Health and Human Services – Food and Drug Administration

**Program Name**: Research and Development Cluster

**CFDA # and Program Expenditures**: Various (\$18,753,648)

Award Numbers: Various

**Questioned Costs:** None

Finding 08-05 Equipment and Real Property Management

#### Requirement

In accordance with OMB Circular A-133, equipment records shall be maintained to include a physical inventory of equipment occurring at least once every two years and reconciled to equipment records, and an appropriate control system shall be used to safeguard equipment.

OMB Circular A-110 requires the University to request disposition instructions from the federal awarding agency when the University no longer needs equipment acquired with federal funds. Additionally, OMB Circular A-110 requires the University to reimburse the federal awarding agency for their share of the sales proceeds.

#### Condition Found

During the physical observation of thirty pieces of equipment purchased with research and development funds, we noted one asset selected for testwork had been disposed prior to the performance of our procedures. The equipment was disposed of in July 2008 (subsequent to the end of the fiscal year); however, as of the date of our testwork, a disposition form had not been completed or authorized. As a result, property records had not been updated for the disposal until our observation was performed in September 2008 (approximately two months after the disposal occurred).

## **Effect**

Failure to maintain accurate equipment records may result in the University incorrectly determining assets purchased and disposed of with Federal funds. Failure to obtain federal approval for equipment disposals and to remit the federal share of sales proceeds results in noncompliance with the regulations applicable to the University's federal program.

#### Recommendation

We recommend the University review its process for ensuring that equipment records are accurately maintained and updated within a timely manner.

Schedule of Findings and Questioned Costs
Year ended May 31, 2008

# Views of Responsible Officials

Management agrees with the finding and the below measures have been implemented to insure swift disposal of inoperative equipment. IIT Asset Tags are affixed to the item as soon as the tag is received by NCFST. IIT Asset Disposal Forms will be submitted as soon as possible once it is known that an asset has been disposed. IIT Fixed Asset Listing for Moffett Campus will be reviewed during February each year so that it can be updated before May 31. IIT Policy on Fixed Assets will be reviewed annually by the NCFST management.

Schedule of Findings and Questioned Costs
Year ended May 31, 2008

Federal Agency: U.S. Department of Health and Human Services – Food and Drug Administration

**Program Name**: Research and Development Cluster

**CFDA # and Program Expenditures**: Various (\$18,753,648)

Award Numbers: 5U01FD000431-20/5U01FD000431-19 REVISED

**Questioned Costs**: None

#### Finding 08-06 Procurement and Suspension and Debarment

#### Requirement

OMB Circular A-110 requires recipients of federal funding to only procure goods and services from or subcontract with responsible organizations which possess the ability to perform successfully under the terms and conditions of the proposed procurement. Contracts with organizations that are suspended and debarred are not allowed.

#### Condition Found

During our testwork over 30 nonpayroll expenditures (totaling \$522,390), we noted the University had not obtained certifications from its vendors that they were not suspended or debarred or independently verified whether vendors were included on the excluded parties listing published by the federal government prior to contracting with these vendors. Of the 30 expenditures tested, only 3 expenditures were applicable, totaling \$272,150, were with vendors with contracts greater than \$25,000 for which procedures were required to be performed. Upon review of the excluded parties listing, we noted none of the vendors sampled were suspended or debarred as of the date of our testwork.

#### **Effect**

Failure to perform suspension and debarment check may result in the University entering into a contract agreement with suspended or debarred vendor. Furthermore, the University would not be eligible to be reimbursed with federal funds expended to the grant award.

#### Recommendation

We recommend the University review its process for performing a suspension and debarment check.

## Views of Responsible Officials

Purchases are made on a decentralized basis following policies and procedures published by the Purchasing Department and in effect at the time of contracting.

While there was a procedure in place for determining suspension and debarment status through use of the Substitute W-9 Form sent to all vendors, it did not incorporate confirmation of vendor response to this form.

Schedule of Findings and Questioned Costs
Year ended May 31, 2008

New procedures published in November 2008 state with greater clarity the requirement to determine vendor status regarding suspension and debarment by requiring vendor certification of status as part of the solicitation of bids and proposals.

Additionally, a new procedure is being written to address adding new vendors to the IIT database. This procedure will require vendor certification of suspension and debarment status. Addition of a vendor to the IIT database will be dependent on receipt of this certification.
