Independent Auditors' Report

The Board of Trustees Illinois Institute of Technology:

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Illinois Institute of Technology (the University), which comprise the consolidated statements of financial position as of May 31, 2013 and 2012, and the related consolidated statements of activities and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statement that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Illinois Institute of Technology as of May 31, 2013 and 2012, and the changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 3, 2013 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

Chicago, Illinois October 3, 2013

Consolidated Statements of Financial Position

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

(1) Nature of Organization

Illinois Institute of Technology

Illinois Institute of Technology (the University) is a private not-for-profit coeducational technical institution that is dedicated to superior teaching and excellent scholarship. Located in Chicago, Illinois, the University enrolls a diverse student body from across the nation and a number of foreign countries.

IIT India is a private not-for-profit entity headquartered in Bangalore, India. The entity has been created to facilitate IIT's ability to deliver long distance internet-based educational programs to residents of various cities in India.

IIT France is a private not-for-profit entity located in Paris, France. The entity has been created to recruit French and European students to the programs of the University and to welcome visiting students from the University.

IIT Research Institute

IIT Research Institute (IITRI) is a not-for-profit corporation working for the advancement of knowledge and the beneficial application of science to meet the needs of society. IITRI's articles of incorporation provide that, in addition to its primary purpose, it will support and assist the University, and in the event of dissolution, IITRI's assets would be distributed to the University. Members of the executive committee of the board of trustees of the University are members of the IITRI corporation. Four officers of the University serve ex officio as members of the IITRI Board of Governors. IITRI also prepares separate annual financial statements as of September 30, its fiscal year-end.

(2) Summary of Significant Accounting Policies and Reporting Practices

(a) Principles of Consolidation

The accompanying consolidated financial statements, which have been prepared on the accrual basis of accounting, include the accounts of Illinois Institute of Technology, IIT India, IIT France, and IITRI. All significant intercompany transactions between these entities have been eliminated from the accompanying consolidated financial statements.

(b) Basis of Presentation

The University maintains its accounts in accordance with the principles and practices of fund accounting. Fund accounting is the procedure by which resources for various purposes are classified for accounting purposes in accordance with activities or objectives specified by donors.

For financial statement reporting purposes, however, the University's consolidated financial statements have been prepared to focus on the organization as a whole and to present balances and transactions in accordance with donor-imposed restrictions.

Net assets and related activity are classified and reported as follows:

Unrestricted – Net assets that are not subject to donor-imposed restrictions.

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

Temporarily Restricted – Net assets that are subject to donor-imposed restrictions that will be met either by actions of the University or the passage of time. Items that affect this net asset category are gifts for which restrictions have not been satisfied and annuity and life income gifts for which the ultimate purpose of the proceeds is not permanently restricted.

Permanently Restricted – Net assets that are subject to donor-imposed restrictions that require them to be maintained permanently by the University. Items that affect this net asset category include gifts and pledges wherein donors stipulate that the corpus be held in perpetuity (primarily gifts for endowment and providing loans to students) and only the income be made available for program operations, and annuity and life income gifts for which the ultimate purpose of the proceeds is permanently restricted.

(c) **Operations**

Operating results in the consolidated statements of activities reflect all transactions increasing or decreasing unrestricted net assets except those items associated with long-term investment, and other infrequent gains, losses, revenues, and expenses.

(d) Revenue

Revenue is reported as an increase in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or law. Expiration of temporary restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled, the stipulated time period has elapsed, and/or amounts have been appropriated by the governing board for expenditures) is reported as reclassifications between applicable classes of net assets.

Private gifts, including pledges, are recognized in the period received. Conditional pledges are not recognized until the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at estimated fair value. Contributions to be received after one year are discounted at an appropriate rate commensurate with the risks involved. Amortization of discount is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any, on the contributions. An allowance for uncollectible pledges receivable is provided based upon management's judgment, including such factors as prior collection history, type of contribution, and nature of fund-raising activity.

Contributions received with donor-imposed restrictions that are met in the same year as the gifts are received are reported as revenue of the unrestricted net asset class. Contributions of land, building, and equipment without donor-imposed restrictions concerning the use of such long-lived assets are reported as revenue of the unrestricted net asset class. Contributions of cash or other assets to be used to acquire land, building, and equipment with such donor restrictions are reported as revenue of the temporarily restricted net asset class; the restrictions are considered to be released at the time the long-lived assets are placed in service.

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

Revenue from University government grant and contract agreements is recognized as it is earned through expenditure in accordance with the agreement.

Tuition and other revenue received prior to the end of one fiscal year, which relates to future periods, are recorded as deferred revenue.

IITRI's research project revenue results from contract research and other services under a variety of contracts, some of which provide for reimbursement of cost plus fees and others, which are fixed-price or time-and-materials type contracts and are reported as grants and contracts revenue on the consolidated statements of activities. IITRI generally recognizes revenue when a contract has been executed, the contract price is fixed or determinable, delivery of the services or product has occurred, and collectibility of the contract price is considered probable. Revenue on cost-plus contracts is recognized as costs are incurred and includes a proportionate share of the fees earned. The percentage-of-completion method is used to recognize revenue on fixed contracts based on various performance measures. From time to time, facts develop that require IITRI to revise its estimated total costs or revenues expected. The cumulative effect of revised estimates is recorded in the period in which the facts requiring revisions become known. The full amount of anticipated losses on any type of contract is recognized in the period in which they become known. Under time-and-materials contracts, labor and related costs are reimbursed at negotiated, fixed hourly rates. Revenue on time-and-materials contracts is recognized at contractually billable rates as labor hours and direct expenses are incurred.

Historically, governmental clients have been a major source of revenue for IITRI. For the fiscal years ended May 31, 2013 and 2012, these governmental clients accounted for approximately 79% and 84%, respectively, of IITRI's operating revenue of \$16,235 and \$15,880, respectively. Included in IITRI's grants and contracts revenue for 2013 and 2012 and grants and contracts receivable at May 31, 2013 and 2012 are unbilled receivables in the amounts of approximately \$1,713 and \$2,162, respectively.

The amount of grants and contracts revenue reflected in the consolidated financial statements is subject to review and adjustment by contracting agencies, principally the federal government. The amount, if any, of expenses that may be disallowed by the contracting agencies cannot be determined at this time. It is the opinion of management that such disallowances, if any, will not be significant.

(e) Investments

Investments are reported at fair value. The fair values of investments in stocks, equity mutual funds, bonds, and fixed-income mutual funds are generally determined based on quoted market prices. Direct investments in real estate included in the investment portfolio are recorded at fair value using the income capitalization and sale comparison methodology. Management's estimate of the fair value of private equity, venture capital, and hedged fund investments is determined based on net asset values (NAV) provided by the external investment managers. The valuations for these investments involve estimates, appraisals, assumptions, and methods, which are reviewed by the University.

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

Cash equivalents, consisting primarily of fixed-income securities and money market accounts with original maturities of three months or less, related to endowment funds are classified as investments. Investment transactions are recorded on the trade date. Realized gains and losses on the sale of investments are calculated on the basis of specific identification of the securities sold. Investment management fees and service charges are netted against investment income for financial reporting purposes.

(f) Notes Receivable

Student notes receivable consist of Perkins loans and University loans. The University establishes valuation allowances for notes receivable based on estimates of future collectibility.

(g) Inventory

Inventories are stated at cost, which is determined by the first-in, first-out method for both the University and IITRI.

(h) Physical Properties

The University's and IITRI's fixed assets are recorded at cost of construction or acquisition. The University and IITRI depreciate their land improvements, buildings, and equipment on the straight-line method over their estimated useful lives, which range from 3 to 50 years.

Upon sale or retirement of an asset, a gain or loss is recorded based on the net book value at the time of sale or retirement. Minor expenditures for renovations, construction, and replacement of equipment are charged to current operations and are not capitalized.

(i) Impairment of Long-Lived Assets

The University and IITRI account for long-lived assets in accordance with the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Section 360 Subtopic 10, *Impairment* orDisposal of Long-Lived Assets. FASB ASC Section 360 Subtopic 10 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets.

(j) Beneficial Interest in Perpetual Trusts

The University has a beneficial interest in certain perpetual trusts that are held by third parties and are reported at fair value. The University recognizes contribution revenue equal to its proportionate share of the fair value of the trust assets upon notification and determination that its right to receive benefits under the agreement is unconditional. Changes in the fair value of the University's interest in the trust assets are reflected as gains or losses in the period they occur.

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

(k) Split-Interest Agreements

The University's split-interest agreements with donors consist of irrevocable charitable remainder trusts, annuity trusts, and charitable gift annuities for which the University is either the remainder beneficiary or both the trustee and the remainder beneficiary.

Assets held in trust for which the University serves as trustee are included in investments. In addition, the present value of the estimated future payments to be made to the donors and/or other beneficiaries is reported as an obligation under split-interest agreements. The liabilities are adjusted during the term of the agreements for changes in the value of the assets, accretion of the discount, and other changes in the estimates of future benefits.

Assets held in trust for which the University does not serve as trustee are not reported as investments in the consolidated financial statements. However, contribution revenue and a receivable are recognized at the date the trusts are established at the fair value of the trust assets, which represents the estimated present value of the expected future cash flows to be received.

(l) Income Taxes

The University and IITRI have each received a determination letter from the Internal Revenue Service (IRS) stating that they are exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code except for tax on unrelated business income. It is management's belief that none of its activities have produced material unrelated business income, and that the University has operated in a manner that qualifies it for tax-exempt status.

U.S. generally accepted accounting principles require University management to evaluate tax positions taken by the University and IITRI and recognize a tax liability (or asset) if the University and IITRI have taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed tax positions taken by the University and IITRI and has concluded that as of May 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the consolidated financial statements. The University and IITRI are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The University and IITRI management believes it is no longer subject to income tax examinations for years prior to 2008.

(m) Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

(n) Reclassifications

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

(3) Fair Value Measurement

FASB ASC Section 820, *Fair Value Measurements and Disclosures*, defines fair value as the price that could be received for an asset or paid to transfer a liability in the University's principal or most advantageous market in an orderly transaction between market participants on the measurement date.

FASB ASC Section 820 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category generally includes certain private debt and equity instruments and alternative investments.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. In 2013 and 2012, the University uses the following valuation techniques to measure the financial instruments fair value:

Level 1 consists of financial instruments, such as cash and cash equivalents, bond proceeds, mutual funds, stocks, and money market funds, whose value is based on quoted market prices published by a financial institution or exchange funds, exchange-traded instruments, and listed equities.

Level 3 consists of investments for which there are no active markets. The University has real estate investments, hedged equity mutual funds, private equity and venture capital funds, and beneficial interests in perpetual trusts as Level 3. The May 31, 2013 and 2012 real estate is valued utilizing the income capitalization and sale comparison methodology completed by an independent real estate appraiser. The University's interests in alternative investment funds, such as hedged equity mutual funds and private equity and venture capital funds, are generally reported at the NAV, which is used as a practical expedient to estimate fair value, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of May 31, 2013 and 2012, the University had no plans to sell investments at

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

amounts different from NAV. Beneficial interests in perpetual trusts are held by various financial institutions. These values are based on the University's proportionate share of the investments. The fair values of the investments in these trusts are based on quoted market prices published by financial institutions.

The University has \$18,503 for 2013 and \$18,837 for 2012 of investments in alternative investment funds, which are reported at fair value. The University has concluded that the NAV reported by the underlying fund approximates the fair value for these investments. These investments are redeemable with the fund at NAV under the original terms of the partnership agreements and/or subscription agreements and operations of the underlying funds. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the NAV of the funds and, consequently, the fair value of the University's interests in the funds. Furthermore, changes to the liquidity provisions of the funds may significantly impact the fair value of the funds.

Although a secondary market exists for these investments, it is not active and individual transactions are typically not observable. When transactions occur in this limited secondary market, they may occur at discounts to the reported NAV. Therefore, if the redemption rights in the funds were restricted or eliminated and the University were to sell these investments in the secondary market, it is reasonably possible that a buyer in the secondary market may require a discount to the reported NAV, and the discount could be significant. The University has unfunded commitment of \$589 relative to the Commonfund and Roundtable alternative investments.

Assets Measured on a Recurring Basis

The following tables present information about the University's financial assets that are measured at fair value on a recurring basis as of May 31, 2013 and 2012, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value.

Equity mutual funds		97,631	116,322	100,737	98,993
Bonds (IITRI)		5,388	5,383	4,133	4,136
Fixed income mutual funds		40,294	41,473	31,545	35,997
Hedge equity funds		12,171	12,553	12,171	11,408
Private equity funds		1,802	5,950	3,719	7,429
Real estate		12,900	4,000	12,900	4,000
Total investments	\$	201,664	217,262	179,640	176,439

For investment purposes, the University pools substantially all assets of its endowment accounts. Each account owns "units" of the consolidated investment pool. The pooled assets are valued on a monthly basis and a fair value per unit is determined, which is used to calculate the number of units purchased by accounts entering the pool and redeemed by accounts withdrawing from the pool. Income (interest, dividends, and rents) earned by the investment pool is distributed to the individual accounts on the basis of average units owned by each account in the pool during the year.

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

Return on investments consists of the following for the years ended May 31:

	 2013	2012
Return on investments:		
Interest and dividends	\$ 3,827	2,232
Net realized gain on sale of investments	8,488	5,013
Net unrealized (loss) gain on investments	 18,799	(12,518)
Net return on investments	\$ 31,114	(5,273)

The return on investments reflects income from investments held by IITRI of \$56 and \$57 for 2013 and 2012, respectively. The net change on investments reported on the consolidated statements of activities includes the permanently restricted gain on the beneficial interest in perpetual trusts of \$1,245 for 2013 and loss of \$1,351 for 2012.

(5) Pledges Receivable

Pledges receivable consist of unconditional promises to give and are summarized as follows at May 31:

	 2013	2012
Pledges receivable Discount to present value future cash flows	\$ 27,440 (110)	28,737 (169)
Net pledges receivable	\$ 27,330	28,568

The following is a summary showing the expected timing of collection of total gross unconditional pledges receivable outstanding as of May 31, 2013:

Fiscal year(s)		Amount		
Less than one year 1 to 5 years	\$	9,687 17,753		
	\$	27,440		

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

(6) **Physical Properties**

The University's consolidated physical properties consisted of the following as of May 31:

	 2013	2012
Land and land improvements	\$ 28,729	28,729
Building and building improvements	385,352	381,132
Equipment and library collection	88,755	86,881
Construction in progress	 5,846	2,857
Total physical properties	508,682	499,599
Less accumulated depreciation	 239,675	225,452
Physical properties, net	\$ 269,007	274,147

In accordance with FASB ASC Section 360 Subtopic 10, *Impairment or Disposal of Long-Lived Assets*, the University recorded an impairment of the land parcel for \$645 during 2012, and a loss in the consolidated statement of activities in nonoperating revenue and expenses. At May 31, 2013 and 2012, the land parcel was valued at \$5,800 and \$4,535, respectively. On August 15, 2013, the University sold the land parcel for \$5,925. The University will record a \$1,390 gain during 2014.

(7) Beneficial Interest in Perpetual Trusts

The University is an income beneficiary of certain irrevocable trusts that are held and controlled by independent trustees. The University has no equity interest in the principal of these trusts. At May 31, 2013 and 2012, the share of these trusts from which the University derives income had a combined fair value of \$21,298 and \$20,053, respectively. These trusts provided unrestricted income of \$751 and \$626 in fiscal 2013 and 2012, recorded in investment income on the consolidated statements of activities.

(8) Notes and Bonds Payable

Notes and bonds payable consist of the following at May 31:

Interest rate		2013	2012
5.00% and 6.10%	\$	160,000	160,000
4.750% to 7.125%		29,340	30,000
Variable		12,775	13,660
Various		14,000	14,000
	\$	216,115	217,660
	5.00% and 6.10% 4.750% to 7.125% Variable	5.00% and 6.10% \$ 4.750% to 7.125% Variable Various	5.00% and 6.10% \$ 160,000 4.750% to 7.125% 29,340 Variable 12,775 Various 14,000

(Continued)

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

The following is a summary of required principal payments on outstanding secured obligations as of May 31, 2013:

Fiscal year ending:		
2014	\$	18,695
2015		4,960
2016		6,085
2017		6,395
2018		6,715
2019 and beyond	-	173,265
Total notes and bonds payable	\$	216,115

In March 2006, the University issued \$160,000 in fixed rate revenue bonds through the Illinois Finance Authority (IFA) consisting of \$153,600 (IFA Series 2006A) and \$6,340 (IFA Series 2006B). Proceeds from the bonds were used to advance refund the IEFA Series 1999 Bonds, refund the outstanding IEFA Series 2000 Bonds, refund the outstanding IEFA Series 2004 Bonds, and finance a portion of the costs of the construction, renovation, and equipping of certain of the educational facilities of the University and pay for certain expenses incurred in conjunction with the issuance of the Series 2006A and 2006B Bonds. The fixed rate on the Series 2006A Bonds is 5% with serial bonds maturing from April 2016 through 2036 and term bonds due April 1, 2031 and April 1, 2036. The Series 2006B term bond bears a 6.10% rate maturing April 1, 2015.

In July 2009, the University issued \$30,000 in fixed rate revenue bonds through the Illinois Finance Authority (IFA Series 2009). Proceeds from the bonds were used to finance a portion of the costs of the renovation of the educational facilities of the University, establish a debt service reserve fund, and pay certain costs incurred in connection with the bond issue. The fixed rates on the Series 2009 Bonds are 4.75% and 5.25% serial bonds maturing in February 2013 and 2014 and 6.25%, 6.50%, and 7.125% term bonds maturing in February 1, 2019, 2023, and 2034.

In August 2004, IITRI issued an \$18,820 bond issue of adjustable rate demand debt under the tax-exempt authority of the Illinois Finance Authority (IFA Series 2004). The proceeds from the sale were used to (i) renovate and construct lab and office space; (ii) establish a debt service reserve fund; and (iii) pay certain costs incurred in connection with the bond issue. Additionally, IITRI has obtained an irrevocable letter of credit issued by JPMorgan Chase Bank through March 31, 2014, which is renewable annually upon mutual consent of the parties. In the event that the agent is unable to remarket the bonds, the bonds become a demand note under the irrevocable letter of credit issued by JPMorgan Chase Bank through March 31, 2014, which is renewable annually upon mutual consent of the parties. In the event that the agent is unable to remarket the bonds, the bonds become a demand note under the irrevocable letter of credit issued by JPMorgan Chase Bank. If the letter of credit is not renewed and an alternate credit facility is not in place, IITRI's bonds are subject to mandatory redemption. Although the loan agreement between IITRI and IFA is for a 30-year period, the terms of the letter of credit between IITRI and JPMorgan Chase Bank require the bonds to be amortized over a 13-year life carrying interest rate of base rate plus 1%; accordingly, the current amortization schedule results in final payment in year 2023, which does not violate the terms of IITRI's loan agreement.

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

The University maintains a line-of-credit agreement that allow borrowings up to \$20,000 in 2013 and \$20,150 in 2012. Borrowings under the line of credit will bear interest at the prime commercial rate or adjusted LIBOR with interest being payable on a monthly basis. The borrowing under the line of credit will be payable on demand, but if no demand is made, borrowing shall automatically mature on the interest payable date next following the date the loan is made. The amount outstanding under the agreement was \$14,000 as of May 31, 2013 and 2012.

The University and IITRI are subject to certain debt covenants. As of May 31, 2013, management believes those covenants have been met.

The fair value of long term debt as of May 31, 2013 and 2012 was:

	201	3	201	12
_	Fair value	Carrying value	Fair value	Carrying value
\$	200,617	202,115	191,441	202,775

The fair value of long-term debt is determined by quoted prices for comparable borrowings as of May 31, 2013 and 2012, which is considered to be level 2 in the fair value hierarchy. The quoted prices are available but the assets are traded less frequently and thus valuation is accomplished using similar securities, the parameters of which can be directly observed.

(9) Accrued Postretirement Benefit Obligation

The University created a retirement incentive program for tenured faculty in November 2006. As part of the incentive program, certain medical benefits are offered to participants. A reconciliation of the plan's funded status with the accrued benefit cost reported on the consolidated statements of financial position at May 31 is presented below. The accumulated postretirement benefit obligation disclosed below is the actuarial value of future benefits used on employees' service rendered through the measurement date.

	 2013	2012
Change in accumulated postretirement benefit obligation at beginning of the period	\$ 2,466	2,301
Service cost		5
Interest cost	96	111
Actuarial gain	198	136
Actuarial benefit payments net contributions	 (137)	(87)
Accumulated postretirement benefit obligation at end of the period	\$ 2,623	2,466

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

	 2013	2012
Change in fair value of plan assets: Fair value of plan assets at beginning of period Employer contribution Participant contributions Total benefit payments	\$ 137 50 (187)	87 51 (138)
Fair value of plan assets at end of the period	\$ 	
Funded status	\$ 2,623	2,466
Amounts recognized in the consolidated statements of financial position consist of: Current liabilities Noncurrent liabilities	\$ 149 2,474	137 2,329
Accrued postretirement benefit obligation	\$ 2,623	2,466

In fiscal year 2008, the University adopted FASB ASC Section 715 Subtopic 60, *Defined Benefit Plans – Other Postretirement*. The accumulated charge to unrestricted net assets consists of amounts that have not yet been recognized in net periodic benefit cost at May 31 are as follows:

	 2013	2012
Unrecognized actuarial loss	\$ 432	235
Unrecognized prior service costs	26	38

These amounts will be subsequently recognized in future years as components of net periodic pension cost. The estimated amortization of transition obligation, prior service cost, and net losses in the next fiscal year is \$0, \$12, and \$13, respectively.

The components of net periodic postretirement benefit cost for the years ended May 31 are as follows:

	 2013	2012
Service cost	\$ 	5
Interest cost	96	111
Amortization of prior service cost	 12	12
Net periodic postretirement benefit cost	\$ 108	128

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

(a) Actuarial Assumptions

The weighted average assumptions used in the accounting for the postretirement plan for the years ended May 31 are shown below:

	2013	2012
Discount rate (expense)	4.01%	4.94%
Discount rate (obligation)	4.15	4.01
Healthcare cost trend rates:		
Healthcare cost trend rate assumed for next year	8.00	9.50
Ultimate rate	5.00	5.00
Year that the ultimate rate is reached	2025	2021

Assumed healthcare cost trend rates have a significant effect on the amounts reported for healthcare plans. A one-percentage point change in assumed healthcare cost trend rates would have the following effects for the fiscal years ended May 31:

		2013	2012
Effect on total service cost and interest cost: One-percentage point increase One-percentage point decrease		11 (9)	13 (11)
Effect on year-end postretirement benefit obligation: One-percentage point increase One-percentage point decrease	\$	283 (244)	272 (233)

(b) Estimated Future Benefits Payments

The following benefit payments, which reflect expected future service, are expected to be paid for each of the fiscal years ending May 31:

Fiscal year:	
2014	\$ 148
2015	151
2016	160
2017	155
2018	162
2019 - 2022	884

(c) Plan Amendment

Effective August 1, 2007, the plan was amended to eliminate post-65 benefits for all retirees, both current and future. There was also a group of faculty participants who were offered a special option

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

under which the University would reimburse their premiums for post-65 retiree coverage. This special benefit option was only available through May 31, 2008. Participants had to sign up by this date in order to participate.

(10) Employee Benefit Plans

(a) Pension Plan

Substantially all full-time employees of the University and IITRI are participants in defined contribution retirement plans that are funded by contributions from the University, IITRI, and participating employees. Total contributions made under the plans for the years ended May 31, 2013 and 2012 were \$6,374 and \$6,099 by the University and \$349 and \$342 by IITRI, respectively.

(b) Healthcare Benefits Plans

The University maintains a healthcare benefits plan (the Plan) that provides for certain major medical, surgical, and other benefits for all eligible employees and dependents. The Plan is partially self-funded by the University, subject to stop-loss arrangements. Under this Plan, the University makes contributions to cover benefits not funded by employees, limited by stop-loss amounts.

IITRI offers a healthcare benefits plan (the Plan) that provides for certain medical and dental expense coverage, including certain vision discounts for all eligible employees and dependents. The Plan is fully insured and underwritten by Blue Cross Blue Shield of Illinois and Dearborn National. Under this Plan, premium contributions are shared by both IITRI and plan participants.

(11) Functional Classification of Expenses

Operating and nonoperating expenses are reported in the consolidated statements of activities by natural business category. The University's primary program services are instruction and research. Expenses reported as academic support, student services, institutional support, and auxiliary enterprises are incurred in support of these primary program services.

Consolidated expenses by functional classification are as follows for the years ended May 31:

	 2013	2012
Instruction	\$ 89,972	84,249
Research and other grant activities	67,971	64,813
Academic support	27,115	25,199
Student services	18,754	17,632
Institutional support	51,318	43,606
Auxiliary enterprises	 10,493	13,004
Total	\$ 265,623	248,503

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

(12) Net Assets

Certain unrestricted net assets are designated for specific purposes by the board of trustees of the University and are summarized as follows at May 31:

	 2013	2012
Funds designated by the board of trustees Undesignated	\$ 66,760 (16,030)	69,202 (26,723)
Total	\$ 50,730	42,479

Donor restrictions on temporarily restricted net assets consist of the following at May 31:

	 2013	2012
General operations	\$ 20,874	18,040
Property, plant, and equipment	13,948	_
Instruction and academic departments	5,224	2,298
Scholarships	10,677	2,703
Split-interest annuity agreements	 932	932
Total	\$ 51,655	23,973

Permanently restricted net assets consist of the following at May 31:

	 2013	2012
Endowment	\$ 162,263	155,776
Endowment pledges	12,036	18,182
Donor-restricted revolving loan funds	3,827	4,051
Split-interest annuity agreements	2,269	2,094
Beneficial interest in perpetual trusts	 21,298	20,053
Total	\$ 201,693	200,156

The amount of outstanding loans from quasi-endowments to unrestricted funds is \$10,653 and \$11,177 at May 31, 2013 and 2012, respectively.

(13) Endowments

The University endowments include both donor-restricted endowment funds and funds designated by the board of trustees to function as endowments. As required by applicable standards, net assets associated with endowment funds, including funds designated by the board of trustees to function as endowment, are classified and reported based on the existence or absence of donor-imposed restrictions.

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

The board of trustees of the University has interpreted the State of Illinois Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gifts as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. Notwithstanding the foregoing, this determination is not intended to, and shall not, affect the University's authority under UPMIFA to spend any amounts from an endowment fund on a short-term basis even if the market value of the endowment fund is below the original value of the gifts by the donor. As the result of this interpretation, the University classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment; (b) the original value of the subsequent gifts to the permanent endowments; and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time of accumulation is added to the fund.

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets unless there are specific purpose restrictions that have not been met by the University.

	_	Unrestricted	Temporarily restricted	Permanently restricted	Total
Donor-restricted endowment funds Board-designated funds	\$	(3,908) 28,353	23,165	174,299	193,556 28,353
Total	\$	24,445	23,165	174,299	221,909

Endowment net assets consist of the following as of May 31, 2013:

Endowment net assets consist of the following as of May 31, 2012:

	Unrestricted	Temporarily restricted	Permanently restricted	Total
Donor-restricted endowment funds Board-designated funds	\$ (4,481) 23,013	5,923	173,958	175,400 23,013
Total	\$ 18,532	5,923	173,958	198,413

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

Changes in endowment net assets for the year ended May 31, 2013 are as follows:

	_	Unrestricted	Temporarily restricted	Permanently restricted	Total
Net assets, beginning of year	\$	18,532	5,923	173,958	198,413
Endowment-related investment return: Endowment-related investment					
income, net		56	3,771		3,827

Endowment-related net realized and unrealized loss	-	(9,677)	(678)		(10,355)
Total endowment-related investment return		(7,502)	(678)		(8,180)
Contributions Appropriation	-	(11,876)	(1,124)	10,130	10,130 (13,000)
Net assets, end of year	\$	18,532	5,923	173,958	198,413

(a) Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor gave to the University to retain as a fund of perpetual duration. Deficiencies of this nature that are reported in unrestricted net assets were \$3,908 and

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

\$4,481 as of May 31, 2013 and 2012, respectively. These deficiencies are the result of unfavorable investments returns in fiscal year 2012, as well as appropriations deemed prudent, for certain programs, by the board of trustees. Subsequent gains that restore the fair value of such funds to the required level are classified as increases in unrestricted net assets.

(b) Spending Policy and Strategies Employed for Achieving Objectives

The University has adopted investment policy to provide a stable source of funds to help and support the ongoing operations and activities of the University. Pursuant to this objective, the University seeks to earn a long-term total rate of return sufficient to produce growth of endowment assets, net of spending requirements of 5%, inflation, and investment expenses.

The purpose of the endowment funds is to facilitate donors' desires to make substantial long-term gifts to the community and to develop a new and significant source of revenue for the University. In doing so, the endowment fund will provide a secure, long-term source of funds to: (a) fund special programs; (b) ensure long-term growth; (c) enhance the University's ability to meet changing community needs; and (d) support the administrative expenses of the University as deemed appropriate.

To achieve these goals, the University's spending policy utilizes the total return concept of endowment spending. Under the method adopted by the University, interest, dividends, and rents as well as appreciation on investments held by the investment pool are made available for spending. The University's total endowment fund spending is based upon a target percentage of a subset of investments. The target percentage set by the board of trustees is 5% of the average quarterly endowment balance for the prior 12 quarters. The board of trustees set endowment distribution is \$10,700 for fiscal year 2013 and \$13,000 for fiscal year 2012. The board of trustees budgeted endowment distribution is \$11,100 for fiscal year 2014.

(14) Leases

In December 1999, the University leased its undeveloped property, located at 32nd Street between Michigan Avenue and Indiana Avenue, to Michigan Place LLC for a term of 100 years. The agreement requires Michigan Place LLC to pay the University \$815 in total lease payments. The University has received these payments.

In May 2002, the University entered into a 40-year ground lease agreement with IIT State Street, NFP (State Street Corp) to lease property on the University's campus for the purpose of building housing to lease to students, faculty, and staff of the University or employees of other not-for-profit educational institutions in the area. IIT State Street, NFP is a 501(c)(3) corporation that is affiliated with, but not controlled by, the University and, accordingly, is not included in the University's consolidated financial statements.

In December 2003, the University entered into a five-year operating lease with State Street Corp whereby the University committed to lease unoccupied beds at the leased property sufficient to allow State Street Corp to achieve a debt service ratio of 1.0. On August 30, 2006, the operating lease was amended to extend the expiration date to September 30, 2013; thereafter, the operating lease will automatically renew for

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

successive one-year periods. For years ended May 31, 2013 and 2012, it was not necessary for the University to lease unoccupied beds due to State Street Corp achieving a 1.0 debt service ratio.

In January 2006, the University entered into a 55-year ground lease agreement with Townsend Chicago, LLC (Townsend). Townsend purchased from IIT the building known as the Technology Business Center for \$2,600 resulting in a gain of approximately \$2,400, which is being amortized over the life of the building lease. IIT is leasing approximately 21% of the building back from Townsend for an initial term of 18 years.

In January 2007, the University entered into a five-year space rental lease with 350 LLC, which expired on August 31, 2012. In May 2011, the University extended the lease for an additional five years, so the new expiration date is now August 31, 2017. The lease involves occupying space in the building located at 350 North LaSalle.

In March 2010, the University entered into a seven-year agreement to lease additional space of the Technology Business Center, which was effective June 2010. Related to this University's agreement, Townsend and the University agreed to establish a charitable donation to offset the University's expenses attributed to the agreement until May 2013. In June 2013, the University will begin funding the lease payments with University funds.

In May 2012, the University entered into an agreement with Chicagoland Entrepreneurial Center for space on the twelfth floor of the Merchandise Mart through April 30, 2013. Prior to its expiration, the University elected to exercise its option to extend the agreement an additional year through April 30, 2014.

The University also entered into an agreement with Academic Analytics, LLC for the use of a Web-based data portal to access content and tools of the database. The terms of the agreement extend to June 30, 2016.

A schedule of current and future operating lease commitments under these lease obligations are as follows:

Year ending May 31:	
2013	\$ 2,019
2014	2,080
2015	2,116
2016	2,104
2017	937
2018	961
Thereafter	 6,569
	\$ 16,786

(15) Financing Receivables

The University adopted Accounting Standards Updates (ASU) No. 2010-20, *Disclosure about the Credit Quality of Financing Receivables and the Allowance for Credit Losses* (Topic 310), effective May 31, 2012. This ASU is intended to provide financial statement users with greater transparency about an entity's

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

allowance for credit losses and the credit quality of its financial receivables. This ASU amends existing disclosures and provides additional disclosures about its financing receivables on a disaggregated basis.

Financing Receivables

The University's financing receivables consist of a revolving loan fund for Federal Perkins Loans for which the University acts as an agent for the federal government and institutional loan funds created by the University to assist students in funding their education. These loans are valued based on the outstanding principal balance, less an allowance for estimated losses. Interest earned on outstanding loan balances is recorded based on the terms of the individual loan agreements and continues to accrue even when past due.

The availability of funds for loans under the Federal Perkins Loan program is dependent on reimbursements to the pool from repayments on outstanding loans. Funds held in the federal loan programs of \$8,117 are ultimately refundable to the government and are classified as a liability in the consolidated statements of financial position.

Balances of financing receivables as of May 31, 2013 consist of the following:

	_	Perkins loans	Institutional loans	Total
Gross balance Allowances	\$	7,533 (210)	3,445 (150)	10,978 (360)
Balance at May 31, 2013	\$	7,323	3,295	10,618

Balances of financing receivables as of May 31, 2012 consist of the following:

	 Perkins Loans	Institutional Loans	Total
Gross balance Allowances	\$ 7,367 (237)	3,882 (261)	11,249 (498)
Balance at May 31, 2012	\$ 7,130	3,621	10,751

For each class of financing receivables, the following table presents the credit quality indicator as determined by the delinquency status of the loan as of May 31, 2013. The delinquency status is updated monthly by the University's loan servicer.

	 Perkins	Institutional	Total
Performing Nonperforming (defaulted)	\$ 6,898 635	2,504 941	9,402 1,576
Balance at May 31, 2013	\$ 7,533	3,445	10,978

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

The delinquency status as of May 31, 2012 is as follows:

	 Perkins	Institutional	Total
Performing	\$ 6,545	2,930	9,475
Nonperforming (defaulted)	 822	952	1,774
Balance at May 31, 2012	\$ 7,367	3,882	11,249

The aging of financing receivables as of May 31, 2013 is presented as follows:

Aging	 31-60	61-90	91+	Total past due	Total current	Total
Perkins Institutional	\$ 178 35	196 29	702 1,216	1,076 1,280	6,457 2,165	7,533 3,445
Total	\$ 213	225	1,918	2,356	8,622	10,978

The aging of financing receivables as of May 31, 2012 is presented as follows:

				Total		
Aging	 31-60	61-90	91+	past due	Total current	Total
Perkins Institutional	\$ 103 60	139 90	504 1,234	746 1,384	6,621 2,498	7,367 3,882
Total	\$ 163	229	1,738	2,130	9,119	11,249

Allowances for estimated losses are established based on prior collection experience and observed trends in the rate of default, as well as a consideration of current economic trends and indicators. Loan balances are written off when they are deemed to be ultimately uncollectible. Since student loans under the Perkins loan program can be assigned to the government when no longer collectible, a Perkins loan write-off will reduce the amount refundable to the government.

Changes in allowance for estimated losses on financing receivables as of May 31, 2013 are presented as follows:

Balance at June 1, 2012 Write-off	\$ 498 (138)
Balance at May 31, 2013	\$ 360

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

Changes in allowance for estimated losses on financing receivables as of May 31, 2012 are presented as follows:

Balance at June 1, 2011 Write-off	\$ 563 (65)
Balance at May 31, 2012	\$ 498

(16) Contingencies

The University is a defendant in legal proceedings arising in the ordinary course of its business. Although the outcome of these proceedings cannot presently be determined, in the opinion of management, disposition of these proceedings will not have a material adverse effect on the financial position of the University.

(17) Participation in Federal Financial Assistance Program

On May 11, 2013, the University received a letter from the United States Department of Education (USDE) stating that the University failed to meet the financial responsibility standards in 34 CFR 668.172. The University elected to participate in the USDE's Student Financial Assistance programs under the Provisional Certification Alternative (Zone Alternative) for the next award year.

(18) Subsequent Events

In connection with the preparation of the consolidated financial statements and in accordance FASB ASC Section 855, *Subsequent Events*, management evaluated subsequent events after the balance sheet date of May 31, 2013 through October 3, 2013, which was the date the consolidated financial statements were issued.

See accompanying notes to schedule of expenditures of federal awards and independent auditors' report.

Notes to Schedule of Expenditures of Federal Awards

Year ended May 31, 2013

(1) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) summarizes the federal awards received by the Illinois Institute of Technology (the University) under programs of the federal government for the fiscal year ended May 31, 2013. The Schedule excludes expenditures of federal awards of IIT Research Institute, a subsidiary of the University. Expenditures of federal awards for IIT Research Institute will be separately audited in accordance with Office of Management and Budget (OMB) Circular A133, *Audits of Institutions of States, Local Governments, and NonProfit Organizations*.

For purposes of the Schedule, federal awards include all grants, contracts, and similar agreements entered into directly between the University and agencies and departments of the federal government and all subawards to the University by nonfederal organizations pursuant to federal grants, contracts, and similar agreements. The awards are classified into major program and nonmajor program categories in accordance with the provisions of OMB Circular A133. Such categories are as follows:

Major Programs

Research and Development Cluster – Includes awards for research and development activities at the University sponsored by various agencies of the federal government.

Student Financial Assistance Cluster – Includes certain awards to provide financial assistance to students, primarily under the Federal Pell Grant (Pell), Federal WorkStudy (FWS), and the Federal Supplemental Educational Opportunity Grant (FSEOG) programs of the U.S. Department of Education. Also, the University receives awards to make loans to eligible students under the Federal Perkins Loan Program and the Federal Direct Loan Program (FDL).

Nonmajor Programs

Other Federal Awards – Includes awards for program activities at the University sponsored by various agencies of the federal government.

Total expenditures in the Schedule do not directly agree to the revenue line items on the University's May 31, 2013 consolidated statement of activities. The federal expenditures are classified in the accompanying consolidated statement of activities as government grants and contracts revenue, totaling approximately \$45,212,000. The remaining government grants and contracts consist of approximately \$3,675,000 of awards received from states and other sources, with the balance of approximately \$16,325,000 related to IIT Research Institute, a consolidated separate legal entity.

(b) Expenditure Recognition

Expenditures are recognized as incurred. Award reporting periods do not necessarily coincide with the fiscal reporting period of the University. The existence of certain credit balances on the Schedule is primarily due to the reclassification of expenditures incurred and related revenue recorded in the University's prior fiscal reporting period.

Notes to Schedule of Expenditures of Federal Awards

Year ended May 31, 2013

(2) Indirect Costs

The University has four-year predetermined fixed indirect cost rates, effective June 1, 2012 through May 31, 2015, which have been negotiated with its cognizant agency, the U.S. Department of Health and Human Services. The predetermined fixed rates were based on the University's financial information for fiscal year 2010. The base rates for on- and off-campus and FDA research were 52%, 24%, and 9.5% of modified total direct costs, respectively. Approximately \$6,314,279 of indirect costs were reimbursed to the University for the year ended May 31, 2013.

(3) Federal Student Loan Programs

Loans made by the University to eligible students under federal student loan programs and federally guaranteed loans issued to students of the University by financial institutions during the fiscal year ended May 31, 2013 are summarized as follows:

Direct loan programs – Perkins	\$ 1,389,963
Federal Direct Loans (FDL)	 51,376,460
Total federal student loan programs	\$ 52,766,423

The Perkins program is administered directly by the University and balances and transactions relating to this program are included in the University's consolidated financial statements. The balance of loans outstanding under the Perkins program was \$7,533,378 at May 31, 2013. The University received an administrative cost allowance of \$128,263 under the Perkins program during the fiscal year ended May 31, 2013.

The University is responsible only for the performance of certain administrative duties with respect to the FDL, and accordingly, these loans are not included in its financial statements, and it is not practical to determine the balance of loans outstanding to students and former students of the University under these programs at May 31, 2013.

Notes to Consolidated Financial Statements

May 31, 2013 and 2012

(In thousands of dollars)

(4) Summary of Subrecipient Payments

Expenditures made to subrecipients under federal awards for the year ended May 31, 2013 were as follows:

Research and Development Cluster:	
Department of Health and Human	
Services	\$ 1,026,440
Department of Defense	1,329,902
Department of Energy	682,701
Department of Transportation	(1,648)
National Science Foundation	299,783
Department of Agriculture	66,153
Agency of International	
Development	27,442
Department of State	111,390
Other:	
Department of Education	5,500
Small Business Administration	 191,719
Total	\$ 3,739,382

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Trustees Illinois Institute of Technology:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the consolidated financial statements of Illinois Institute of Technology (the University), which comprise the consolidated statement of financial position as of May 31, 2013, and the related consolidated statements of activities and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated October 3, 2013.

Internal Control over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the University's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Chicago, Illinois October 3, 2013

KPMG LLP Aon Center Suite 5500 200 East Randolph Drive Chicago, IL 60601-6436

Independent Auditors' Report on Compliance for Each Major Program; Report on Internal Control over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations

The Board of Trustees Illinois Institute of Technology:

Report on Compliance for Each Major Federal Program

We have audited Illinois Institute of Technology's (the University) compliance with the types of compliance requirements described in the *OMB Circular A133 Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended May 31, 2013. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

The University's consolidated financial statements include the operations of IIT Research Institute, which expended \$15,281,000 in federal awards, which is not included in the University's schedule of expenditures of federal awards for the year ended May 31, 2013. Our audit, described below, did not include the operations of IIT Research Institute because those awards are audited separately.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A133, *Audits of States, Local Governments, and NonProfit Organizations*. Those standards and OMB Circular A133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

Opinion on Each Major Federal Program

In our opinion, Illinois Institute of Technology complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended May 31, 2013.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A133, and which are described in the accompanying schedule of findings and questioned costs as items 2013-001 and 2013-002. Our opinion on each major federal program is not modified with respect to these matters.

The University's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The University's responses were not subjected to the auditing procedures applied in the audit of compliance, and accordingly, we express no opinion on the responses.

Report on Internal Control over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the type of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or combination of deficiencies, in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2013-001 and 2013-002, which we consider to be significant deficiencies.

The University's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The University's responses were not subjected to the auditing procedures applied in the audit of compliance, and accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards by OMB Circular A133

We have audited the consolidated financial statements of the University as of and for the year ended May 31, 2013, and have issued our report thereon dated October 3, 2013, which contained an unmodified opinion on those consolidated financial statements. Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A133 and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements or to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

KPMG LIP

Chicago, Illinois October 3, 2013

Schedule of Findings and Questioned Costs

Year ended May 31, 2013

(1) Summary of Auditors' Results

- (a) The type of opinion issued on the consolidated financial statements: Unmodified opinion
- (b) Significant deficiencies in internal control disclosed by the audit of the consolidated financial statements: **None reported**

Material weaknesses: No

- (c) Noncompliance, which is material to the consolidated financial statements: No
- (d) Significant deficiencies in internal control over major programs: Yes

Material weaknesses: No

- (e) The type of report issued on compliance for major programs: **Unmodified opinions**
- (f) Any audit findings, which are required to be reported under Section 510(a) of OMB Circular A133: **Yes**
- (g) Major programs:

Student Financial Assistance Cluster:

Federal Supplemental Educational Opportunity Grant Program - 84.007

Federal Work Study Program - 84.033

Federal Perkins Loan Program – 84.038

Federal Pell Grant Program - 84.063

Federal Direct Loan Program – 84.268

Research & Development Cluster – various CFDA numbers

- (h) Dollar threshold used to distinguish between Type A and Type B programs: \$2,867,030
- (i) Auditee qualified as a lowrisk auditee under Section 530 of OMB Circular A133: Yes

(2) Findings Relating to the Financial Statements Reported in Accordance with *Government Auditing Standards*: None

Schedule of Findings and Questioned Costs

Year ended May 31, 2013

(3) Findings and Questioned Costs Relating to Federal Awards

Finding 2013-001 Verification – Special Test and Provisions

Federal Agency: U.S. Department of Education (USDE)

Program Name: Student Financial Assistance Cluster - all programs

CFDA # and Program Expenditures: 84.007/84.033/84.038/84.063/84.268 (\$57,934,564)

Award Numbers: P007A121173/P033A121173/P063P121349/P268K136726/P268K131349

Questioned Costs: None

Requirement

An institution shall require each applicant whose application is selected by the central processor, based on edits specified by the USDE, to verify the items specified in 34 CFR Section 668.56. The institution shall also require applicants to verify any information used to calculate the expected family contribution (EFC) it has reason to believe is inaccurate.

Additionally, OMB Circular A110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other NonProfit Organizations, requires nonfederal entities receiving federal awards to establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal control should include ensuring corrections are made as required by federal regulations and supporting documentation is obtained and maintained in the verification file.

Condition Found

During our testwork over a sample of 40 students (from a total population of 636 students) who were selected for verification by the U.S. Department of Education's Central Processor, we noted the following:

- For one student tested (who received SFA awards totaling \$57,566), we noted the verification documentation provided by the student to support the student's adjusted gross family income (AGI) was not consistent with the Institutional Student Information Record (ISIR) used to package the student's financial aid awards. Specifically, we noted the supporting documentation provided to verify the student's AGI identified the amount as \$5,505 while the ISIR reported \$5,050. As a result of this error, the student's expected family contribution was understated by \$221. Upon further review of the student's award package, the error did not affect the amounts awarded to this student under each federal program.
- For two students tested (who received SFA awards totaling \$12,126 and \$19,223), we noted the verification documentation provided by the student to support the number of household members in college was not consistent with the Institutional Student Information Record (ISIR) used to package the student's financial aid awards. Specifically, we noted the supporting documentation provided to verify the number of household members in college identified one fewer household member in college than reported on the ISIRs for both of these students. As a result, the expected family

Schedule of Findings and Questioned Costs

Year ended May 31, 2013

contributions were understated and each students' Pell award exceeded the maximum allowable award by \$300 (\$600 in total).

The 40 students included in our sample received Student Financial Aid (SFA) awards totaling \$509,686, including \$110,041 of Pell grants.

Cause

In discussing these conditions with University management, they indicated these errors were the result of human error resulting from a misunderstanding of program requirements.

Effect

Failure to properly perform verification procedures and correct ISIR information in accordance with federal regulations may result in students receiving awards for which they are not eligible and an unallowable costs being charged to the federal programs.

Recommendation

We recommend the University review its process to ensure all corrections required as the result of verification procedures are properly reported to USDE in a timely manner and awards are adjusted for changes in the EFC as appropriate.

View of Responsible Officials

Management agrees with the finding that the ISIR was not properly verified. The validation process occurred before the University implemented new validation procedures. The University has developed a new data validation process that requires multiple reviews of the ISIR information.

Schedule of Findings and Questioned Costs

Year ended May 31, 2013

Finding 2013-002 Untimely Collection of Student Loan Repayments – Special Tests and Provisions

Federal Agency: U.S. Department of Education (USDE)

Program Name: Student Financial Assistance Cluster - Federal Perkins Loan Program

CFDA # and Program Expenditures: 84.038 (\$1,389,963)

Award Numbers: P268K136726/P268K131349

Questioned Costs: None

Requirements

According to 34 CFR Section 674.31(b)(2), under the Federal Perkins Loan, the institution must establish a repayment plan. The repayment period begins after an initial grace period of either six months or nine months after the student ceases to be at least a halftime student at an institution of higher education, depending on when the loan was made.

Additionally, OMB Circular A110 requires nonfederal entities receiving federal awards to establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements.

Condition Found

The University outsources billing, collection, and due diligence functions of the Federal Perkins Loan program to a third-party service provider. During our testwork over a sample of 21 students who entered repayment in fiscal year 2013 (from a total population of 320 students), we noted four students tested did not enter repayment status in a timely manner. Specifically, the grace periods for these students ranged from 10 to 38 months after the student stopped attending the University on at least a half time basis. As a result, the University's collection of student loans occurred one to 29 months later than required by program regulations.

Upon further review of student loan records, the University and its service provider identified 49 additional students whose loans were not currently in repayment, but should have been sent to repayment in a prior year. Additionally, 20 students whose loans went into repayment during fiscal year 2013, but should have been sent to repayment in a prior year were identified by the University and its service provider.

As of May 31, 2013, there are 266 within the 9 month grace period and 1,545 students in repayment status. The University services the Perkins loans of approximately 2,902 students through its service provider as of May 31, 2013.

Cause

In discussing these conditions with University management, they indicated these errors were the result of an error in the service provider's record of the separation date for each of these students.

Schedule of Findings and Questioned Costs

Year ended May 31, 2013

Effect

Failure to accurately identify information in student loan records prevents the University from collecting Perkins Loan repayments in accordance with program requirements.

Recommendation

We recommend that the University work with its service provider to verify the accuracy of student loan records to ensure students enter repayment in accordance with program regulations.

View of Responsible Officials

Management agrees with the finding that the service provider verify the accuracy of the student loans. The University and the service provider will implement a new student loan report to ensure the students enter into the repayment status per federal guidelines. In addition, the University and service provider are validating the student loan data again to ensure all records are accurate.
